

Sorted in date order		(Alphabetic list follows)
QuickSort	21.12.24	Sorts an array of text at high speed
ProperNounAlyse	21.12.24	Analyses similar proper nouns
MultiSwitch	19.12.24	Scripted word/phrase switching
HighlightWordList	19.12.24	Highlights (and/or colours) all the words/phrases given in a list
FindSamePlaceBack	19.12.24	Finds the same place in another open file
FindSamePlace	19.12.24	Finds the same place in another open file
CompareTwoLists	19.12.24	Compares two lists, and highlights and lists the items unique to each
TextCollectThisColour	17.12.24	Copies any text in the colour at the cursor into a new document
DuplicateSentenceCountFast	17.12.24	Finds duplicate sentences and gives their frequency
NumbersInSingleQuotesHighlight	16.12.24	Finds numbers (numerals) inside single quotes and highlights them
FindNumbersInQuotesSingle	14.12.24	Finds the next number (numeral) inside single quotes
KeystrokeLister	12.12.24	Creates a list of custom key allocations
AcronymAddThe	11.12.24	Adds 'the' in front of various acronyms or titles
CopyToListAlphaMenu	08.12.24	Copies selected text into various alphabetic lists
CopyToListAlphabetic	08.12.24	Copies selected text into an alphabetic list file
ParaSplitJoin	04.12.24	Splits the para after current sentence or joins to next para
PunctuationToParagraphSplit	03.12.24	Splits the paragraph after the next sentence end
MacquariePremiumLogin	30.11.24	Logs in to the Macquarie dictionary
TrackOnOffVisible	25.11.24	Switches tracking on/off with visible background
DuplicateSentencesFind	22.11.24	Lists any sentences that are duplicated
NumberIncrement	20.11.24	Adds one to the next number after the cursor
NumberDecrement	20.11.24	Subtracts one from the next number after the cursor
NumberRangeHyphenToDash	14.11.24	Changes all hyphens in number ranges to en dashes
FigNoteCalloutSwap	13.11.24	Moves the note callout to after the figure citation
HighlightYellow	11.11.24	Highlights the selected text (or a word or a paragraph)
Semicolon	09.11.24	Make adjacent words into semicolon separated
QuestionMark	09.11.24	Makes adjacent words into sentence end
Period	09.11.24	Makes adjacent words into sentence end
FullPoint	09.11.24	Makes adjacent words into sentence end
ExclamationMark	09.11.24	Make adjacent words into sentence end
Dash	09.11.24	Makes adjacent words into sentence end

Comma	09.11.24	Make adjacent words into comma separated
Colon	09.11.24	Makes adjacent words into colon separated
HighlightNonRomanPunctuation	05.11.24	Highlights non-roman punctuation
UKUSAlyse	01.11.24	Analyses variant spelling between UK and US English
SpellingCorrect	01.11.24	Corrects spelling and wrong capitalisation
UKUScount	29.10.24	Counts relative spellings between UK and US English
CitationAlyseAlpha	28.10.24	Checks citations against references
AccentAlyse	24.10.24	Analyses all the words that contain an accent
DeleteRestOfSentence2	22.10.24	Deletes to the end of the sentence, including the current word
CalloutTextboxAdd	17.10.24	Adds a call-out box of the selected text
MacroMenuSearchUp	09.10.24	Searches the Macro Menu (or The Book) (upwards)
MacroMenuSearch	09.10.24	Searches the Macro Menu (or The Book) for two (parts of) words
HashtagCamelizer	07.10.24	Finds the next # and camel-cases the tag following
CountReferenceDates	06.10.24	Counts numbers of references older or newer than five years
FRselective	02.10.24	Sets up various Finds and F&Rs
FindTwoWords	02.10.24	Finds two words within a paragraph
IZtoIS	01.10.24	Corrects text to give -is-, -ys- spellings
IStoIZ	01.10.24	Corrects text to give -iz-, -yz- spellings
SpellcheckingOffForTurquoiseWords	30.09.24	Set any words in turquoise to not be spellchecked
CommentCollector	30.09.24	Creates a table of all comments
OxfordPremiumThesaurusFetch	26.09.24	Launches selected text on OUP Premium thesaurus
CitationAlyse	26.09.24	Checks citations against references
TitlesShowHide	25.09.24	Toggles between light grey font colour text and full colour
OUPFetchPremiumMac	25.09.24	Launches selected text to OUP Premium website on a Mac
FixedFontSwitch	25.09.24	Switches font colour red -> blue -> black ->
CollinsFetch	25.09.24	Launches selected text on Google
VerbChanger	23.09.24	Changes "(to) splodge" <-> "(of/for) splodging"
BoldItalicToStyle	21.09.24	Changes bold, italic and bold-italic applied directly, into character styles
WordFrequency	20.09.24	Counts the frequency of words in a document
GoogleFetchIncognito	14.09.24	Launches selected text to Google Chrome but incognito
HyphenAlyse	05.09.24	Creates a frequency list of all possible hyphenations
DateFormatAlyse	29.08.24	Counts the occurrences of different date

		formats
FigureTableBoxRenumber	26.08.24	Renumbers figures, tables and boxes when some have been deleted
PhraseAlyse	24.08.24	Lists phrases that are duplicated
GoogleScholarFetchQuotes	24.08.24	Launches selected text - with quotes - on Google Scholar
CommentNameChangerWithReplies	19.08.24	Changes the name attached to comments
CommentGoTo	19.08.24	Moves to a specific numbered comment
FootnoteEndnoteFiddle	11.08.24	Tidies up start/end of each footnote or endnote
HighlightOrColourRemove	10.08.24	Removes the current highlight or font colour from the whole text
DuplicatePhrasesFind	10.08.24	Lists any sentences that are duplicated
CommentBubblesToBrackets	10.08.24	Copies comments into brackets in running text
TitlesRevealBoxes	08.08.24	Switches the next light grey font colour to full colour
TitlesReveal	08.08.24	Switches the next light grey font colour to full colour
FindSpecialCharacters	08.08.24	Finds next group of special characters, e.g. Chinese/Arabic
FindTwoWordsSwap	05.08.24	Finds two words in the opposite order within a paragraph
TableEdit	03.08.24	Edits items in the cells of some or all tables
DocAlyseMedical	03.08.24	Analyses the use of various abbreviations in a medical document
JumpPageUp	31.07.24	Jumps to the head of the next page
JumpPage	31.07.24	Jumps to the head of the next page
URLlinker	30.07.24	Finds all URLs and emails in the text and links them
KerningAdjustShortest	24.07.24	Kerns selected text or selects the shortest line in the paragraph
GoogleFetchSpecificBrowser	24.07.24	Launches selected text to Google using a specified browser
TypeThat	20.07.24	Types 'that' after the current word.
NTbackupDatedSimple	20.07.24	Backs up the Normal template with date and time
NTbackupDated	20.07.24	Backs up the Normal template and the VBA code with date and time
TextHoover	13.07.24	Copies formatted text from all of the text areas
HighlightingRemoveAll	12.07.24	Remove all highlighting, including in notes, boxes & comments
TextPickup	06.07.24	Collects text from a series of text areas
QuotesAddSingle	06.07.24	Adds single quotes round a word or phrase
QuotesAddDouble	06.07.24	Adds quotes round a word or phrase
MidSentenceCapitalRemove	05.07.24	Finds initial caps within sentences and offers to lowercase
CommentAddFromFile	04.07.24	Adds a comment from a file of ready-made

		comments
MultiFileBackgroundColourChange	03.07.24	Changes the background colour of all files in a list
ItalicQuickSwitch	01.07.24	Adds/removes italic to/from selected text
BoldQuickSwitch	01.07.24	Adds/removes bold to/from selected text
MacroNameToLink	31.06.24	Makes URL for macro name in clipboard or at cursor and puts in clipboard
CapitAlyse	21.06.24	Analyses capitalised words
DocumentCleaner	19.06.24	Removes styles and fonts but preserves bold, italic, highlights and font colours
MacroFetchPlus	17.06.24	Fetches the macro named in the clipboard or at the cursor, and it loads the URL into the clipboard. If on a blank line, it uses the clipboard text as the name
ClipboardSave	15.06.24	Saves contents of clipboard as a new file in your temp folder
CopyTextSimple	13.06.24	Creates a text-only copy, with some features preserved
MultiSwitch	11.06.24	Scripted word/phrase switching
OUPFetchPremium	10.06.24	Launches selected text to OUP Premium website.
SerialNotCommaHighlight	08.06.24	Highlights or underlines text that appears not to have a serial comma
SerialCommaHighlight	08.06.24	Highlight or underline text that appears to have a serial comma
SelectToTop	31.05.24	Selects all the text from the cursor to the top of the document (for Mac users)
SelectToBottom	31.05.24	Selects all the text from the cursor to the bottom of the document (for Mac users)
GoToTop	31.05.24	Moves the cursor to the top of the document (for Mac users)
GoToBottom	31.05.24	Moves the cursor to the bottom of the document (for Mac users)
GoogleFetch	29.05.24	Launches selected text on Google
SwapPunctuation	25.05.24	Swaps the next pair of punctuation marks
SentenceHighlight	25.05.24	Creates a list of all styles name
SelectWord	24.05.24	Selects current word, and then those before it
CaseThisWord	23.05.24	Changes initial case of current word and jumps to next word
TrackChangeReport	21.05.24	Creates a file of sentences containing (at least n-number of) TCs
LinksToURLtextGlobal	17.05.24	Converts URL links from descriptive text to actual URL address
QuoteSingleDoubleSwitchGlobal	15.05.24	Changes double quotes to single and vice versa, avoiding apostrophes
HyphenSpaceWordCount	13.05.24	Counts hyphenated word forms
CommaAdd	13.05.24	Adds a comma after the current word
CaseNextChar	13.05.24	Changes case of the next character/selection

MacroNameShow	10.05.24	Displays the current macro name in a display file
FourDigitFixer	10.05.24	Adds a delimiter to four-digit numbers, but not dates
CommentTableMaker	09.05.24	Creates a table of all comments
DocAlyse	07.05.24	Analyses various aspects of a document
PunctuationToSingleQuote	06.05.24	Changes next quote mark to single curly
FRstay	04.05.24	Finds and replaces but don't move to next
FRskip	04.05.24	Finds next match forwards, case insensitively
FRgo	04.05.24	Finds, replaces and moves to the next match
FReditListTidy	24.04.24	Tidies up a FRedit list
SpellAlyseToFRedit	23.04.24	Corrects spelling and wrong capitalisation
GoogleFetchFinland	23.04.24	Launches selected text on Google
ListAllStyles	22.04.24	Creates a list of all styles name
LanguageUSUKswitch	22.04.24	Switches language between UK and US English
DocumentAddMyBlank	20.04.24	Adds document at specific window size, based on my template
StyleLister	18.04.24	Lists all paragraph and character styles used
StrikeThroughAllURLs	18.04.24	Strikes through all URLs to protect them from changes
GenusSpeciesAlyse	18.04.24	Checks the abbreviation of genus/species names
FReditCommentToggle	17.04.24	Adds or removes the vertical bar that turns FRedit items into comments
CaseNextWord	16.04.24	Changes case of initial letter of next word or selection
PunctuationToMinus	13.04.24	Finds punctuation and changes to minus sign
MatchSquareBrackets	13.04.24	Check whether brackets match up
ShiftIn	10.04.24	Moves items from the list back into the current document
CopyCommentsAndSave	10.04.24	Create a list of all the comments
CitationListSortByName	10.04.24	Sorts items in a citation list in the text by name.
ShiftUp	09.04.24	Moves a list item up
ShiftOut	09.04.24	Moves items out into a separate list
ShiftDown	09.04.24	Moves a list item up
MerriamFetch	03.04.24	Launches selected text to Merriam
HighlightRemovePerColour	03.04.24	Removes highlight of one colour from selection or whole text
HighlightInContext	30.03.24	Highlights a word or phrase in its context in a sentence/paragraph
LtrRestore	29.03.24	Restores text direction to left-to-right
AynHamzaFormat	28.03.24	Corrects formatting of ayns and hamzas
WordCopierUp	25.03.24	Copies the word from the end of the selection to the beginning
WordCopierDown	25.03.24	Copies the word from the beginning of the

		selection to the end
CopyAllComments	17.03.24	Copies all the comments into a new document
CopyAllComments	17.03.24	Copies all the comments into a new document
HighlightBrightGreen	15.03.24	Highlights the selected text (or a word or a paragraph)
PageBreakColour	14.03.24	Colours/highlights the lines either side of each page break
InstantFindDown	14.03.24	Finds selected text downwards
NumberSelectedList	12.03.24	Applies (or corrects the existing) numbering on the selected text paragraphs
NotesEmbed	12.03.24	Embed footnotes or endnotes
TextToNumber	11.03.24	Finds numbers expressed in words + converts to figures
TextPlusNumber	11.03.24	Finds numbers expressed in words + adds "(figures)"
PunctuationFormatChecker	07.03.24	Variously highlight italic/roman punctuation
WelcheKorrigiere	04.03.24	Finds "welche" after a comma and corrects it
FormatNumbers	02.03.24	Formats number at cursor or numbers within a selection
SimilarWordsAlyse	29.02.24	Analyses similar words
PreferredSpellingsAlyse	29.02.24	Finds words similar to those in a preferred-spelling list
SectionHeadsInComments	26.02.24	Adds the heading style and text of each heading into a comment
CommentSuggestText	26.02.24	Copies selected text to make a comment
CommentNameChanger	26.02.24	Changes the name attached to comments
CommentComposeMenu	26.02.24	Adds a comment off a menu
CommentCompose	26.02.24	Allows you to create a new (modern) comment
CommentAddSimple	26.02.24	Adds a new comment with a standard text item added
CommentAddMenu	26.02.24	Adds a comment off a menu
CommentAddJumpBack	26.02.24	Creates a comment or jumps back to the text
CommentAddAndPasteSelected	26.02.24	Copies text, adds a comment and pastes text
CommentAdd	26.02.24	Adds a comment
HighlightPlus	22.02.24	Adds highlight in a choice of colours
HighlightMinus	22.02.24	Adds highlight in a choice of colours
TrackOnOffVisibleMac	20.02.24	Switches tracking on/off with visible background
BoldItalicEtcToStyle	18.02.24	Changes bold, italic, etc to character styles
PunctuationTrackAcceptAll	16.02.24	Accepts all track changes that involve punctuation
SpellingSuggest	12.02.24	Checks/corrects spellings or adds/subtracts FRedit suggested change
OEDFetch	10.02.24	Launches selected text on OED dictionary site

NTaddressCopy	08.02.24	Reports the address of the folder holding the Normal template
InitialPullBack	03.02.24	Pulls author's trailing initial(s) (e.g. B. or C.D.) in front of surname
HighlightTrackedTextAuthor	02.02.24	Highlights all tracked text by a specific author
PunctuationToApostrophe	01.02.24	Changes next quote mark to an apostrophe
IndexListItems	01.02.24	Finds page numbers of all the words/phrases given in a list
PlurAlyse	29.01.24	Creates a frequency list of single/plural pairs
DuplicatesRemove	26.01.24	Remove duplicate items from a list
LinkDelete	25.01.24	Deletes (unlinks) the current link
LinkCopy	25.01.24	Copies the URL of the current link
LinkAdd	25.01.24	Selects the current word(s) and adds a link from your input
HighlightOffIncNotes	24.01.24	Removes all highlights and/or colour from text and notes
FReditListMenuFixedFiles	23.01.24	Allows fixed filenames, for if FReditListMenu doesn't work for you
TrackChangeCountWords	18.01.24	Checks the track changes to count words/characters added/subtracted
TrackChangeCounter	18.01.24	Reports the numbers of track changes, plus words/characters added/deleted
TrackChangeDisplaySwitch	15.01.24	Switches track change displays: Simple <=> AllMarkup
FindResetParameters	15.01.24	Does a dummy find to set all the parameters to default
CommentCopier	15.01.24	Creates an author query list
CommentCollectTabulated	15.01.24	Collects comments into a table
ColourPlus	15.01.24	Adds font colour in a choice of colours
ParticipleSentenceStartShow	04.01.24	Underlines + highlights the participles that start sentences
ListAllCitations	28.12.23	Alphabetically lists all fig/table/box/flowchart citations
ParagraphEndChecker	22.12.23	Highlights the end of all possibly punctuation-less paragraphs
CommentsCollectTabulated	21.12.23	Collects comments into a table
FindFwd	20.12.23	Finds next match forwards, case insensitively
AuthorForenamesInitialiser	20.12.23	Changes author forenames to initials
DisplayQuote	14.12.23	Finds or displays a long quote
FRedit	07.12.23	Scripted find and replace
CopyToSwitchList	04.12.23	Copies selected text into a switch list file for MultiSwitch
CorrectDialogueEndGlobal	29.11.23	Correct punctuation & capitalisation at dialogue end
SearchHierarchically	24.11.23	Shell macro: Searches hierarchically for a character

RandomTextTypeMac	24.11.23	Types out paragraphs of pseudo-Latin or English text (Mac version)
RandomTextType	24.11.23	Types out paragraphs of pseudo-Latin or English text
MatchParentheses	24.11.23	Check whether brackets match up
MarkupDisplaySwitch	23.11.23	Cycles through track change display levels
IndexPageOrderChecker	21.11.23	Seeks paragraphs that have number list in wrong order
IndexPageNumberSwap	21.11.23	Swaps the page number at the cursor with the next number, e.g. 3,6,4,8,10
DPTMFetch	21.11.23	Launches selected text on DPTM - Busca el texto seleccionado en el Diccionario de términos médicos
ChapterFileLinker	16.11.23	Rejoins all the chapters of a book
PublisherSwitch	14.11.23	Swaps "Location: Publisher Name" to "Publisher Name, Location"
TitleCapAllItalic	13.11.23	Changes all italic titles to title capitals.
SwapNamesFullPoints	13.11.23	Swap name and initials and add full points
CapperMax	13.11.23	Uppercases initial letter of all major words (title case)
FigureCaptionSplitAll	30.10.23	Splits all captions into two lines, the second in italic
FigureCaptionSplit	27.10.23	Splits a caption into two lines, the second in italic
SaveAllUnsavedDocs	26.10.23	Saves all unsaved documents
MarkIt	25.10.23	Applies various attributes by (wildcard) F&R
FieldCodesVisible	24.10.23	Switches between fields being visible and not visible
ChapterChopper	20.10.23	Chops a chapter into separate files
EtAlCitationElision	04.10.23	Crops multi-author citation to single name + 'et al'
UKUShighlight	02.10.23	Marks US spellings within UK text and vice versa
FindMissingPageNumbers	28.09.23	Clears trailing spaces, then highlights refs without page numbers
CommentsResolveSelected	19.09.23	Resolves all the comments in the selected area of text
AllCapWordsCollect	15.09.23	Collects all the words in all caps style
RepeatedWordsInParagraphs	10.09.23	Highlights any words duplicated within given paragraphs
GoogleMapFetch	06.09.23	Launches selected text to Google Maps
SelectionGrowRight	02.09.23	Extends the selection word by word to the left
SelectionGrowLeft	02.09.23	Extends the selection word by word to the left
WhatFolder	01.09.23	Loads the clipboard with the address of folder of this file
SelectionRoundOff	01.09.23	Extends the existing selection to the nearest

		word end/start
CopyToList	01.09.23	Copies selected text into a list file
TabbedParasToIndent	30.08.23	Finds tabbed paras, deletes them and adds first-line indent instead
GoogleFetchQuotesEgypt	30.08.23	Launches selected text - with quotes - on Google
GoogleFetchEgypt	30.08.23	Launches selected text on Google
LanguageSwitch	16.08.23	Switches the language between two or three alternates
IncludeBracketInSentence	11.08.23	Moves the full point to after the bracketed reference
MultiSyllableWordsHighlight	10.08.23	Highlights words of 3, 4 or 5+ syllables
LongWordHighlighter	09.08.23	Highlights all words more than a certain length
NoteCitationsOutsidePunctuationGlobal	28.07.23	Moves all note numbers to outside the punctuation
MoveToEnd	22.07.23	Moves the selected text to the end of the sentence
SingleQuotesDoubleTopical	20.07.23	Changes single quotes around current text to doubles
DoubleQuotesSingleTopical	20.07.23	Changes double quotes around current text to singles
TablesStrikeThroughAll	19.07.23	Adds a strike-through to all table text
ReferenceErrorHighlight	19.07.23	Highlights references that aren't found
LinkProblemHighlighter	19.07.23	Highlights links that don't go anywhere
LinkProblemHighlight	19.07.23	Highlights links that don't go anywhere
SelectBetweenQuotes	17.07.23	Selects text between double quotes and optionally does a Fetch
DisplayedQuoteToInline	17.07.23	Turns a displayed quote to an inline quote
DisplayedQuotesShortHighlight	17.07.23	Highlights all displayed quotes that are too short
URLshrinker	15.07.23	Reduces the extent of a URL link to just the selected text
NumberToTextUS	13.07.23	Converts next number into text, eg "two hundred forty-two"
NumberToTextUK	13.07.23	Converts next number into text, eg "two hundred and forty-two"
MovePreviousSentence	12.07.23	Moves the cursor to the start of the next sentence
HighlightSpecialCharacters	06.07.23	Highlights all special characters in a file
SelectionStartShrink	03.07.23	Pulls the start of the selection back to the right (i.e. shrinks it)
SelectionStartExtend	03.07.23	Moves the start of the selection further out to the left (i.e. extends it)
SelectionEndShrink	03.07.23	Pulls the end of the selection back to the left (i.e. shrinks it)
SelectionEndExtend	03.07.23	Moves the end of the selection further out to the right (i.e. extends it)
SaveAsWithIndex	30.06.23	Saves the current file, adding a postfix

PunctuationOff	30.06.23	Deletes the next punctuation item
CountRemainder	27.06.23	Counts words below the cursor
AndToAmpersandGlobal	24.06.23	Changes all citations from "and" to "&"
AndToAmpersand	24.06.23	Changes the next citation from "and" to "&"
ContentsListerByStyle	23.06.23	Create a contents list from numbered heading style
AmpersandAdd	23.06.23	Adds an ampersand in front of the current name
PlurAlyseColour	19.06.23	Colours/highlights all words listed by PlurAlyse
PlurAlyse	17.06.23	Creates a frequency list of single/plural pairs
NavigationPanePrepare	16.06.23	Copies text and prepares for Navigation pane (only needed for Macs)
FindFwdCase	16.06.23	Next case-sensitive find forwards
FindBack	16.06.23	Next find backwards
RomanPunctuationHighlight	13.06.23	Finds roman punctuation that follows italic text
NotesEmbedSquareBrackets	09.06.23	Creates endnotes from text-based notes, numbered in square brackets
WhatChar	07.06.23	Show ASCII and unicode and character names
LanguageSetMulti	07.06.23	Toggles between different language country settings
ColourPlusAttribute	06.06.23	Applies font/highlight colour plus an attribute
DeleteOneWord	26.05.23	Deletes current word, but no punctuation (was called DeleteWord)
SpellAlyse	25.05.23	Complete spellchecking system
FigStrip	25.05.23	Strips out all figures and leave a callout
CaptionsListAll	25.05.23	Lists all paragraphs with bold Figure, Table, Box
TrackChangeDisplaySelect	21.05.23	Cycles through track change display levels
LinksAllToEndnotes	18.05.23	Change each active URL link into an endnote
DocAlyseUser	18.05.23	Create your own (multilingual?) document analyses
MultiFileDocToDocxSave	12.05.23	Save any .doc files in a folder also in .docx format
HighlightAllItalic	07.05.23	Highlights all text in italic (including in notes)
HighlightOffNextWord	15.04.23	Unhighlights the next word that has some highlighting
HighlightOffNext	15.04.23	Unhighlights the next area of highlighting
OddLanguageHighlighter	12.04.23	Highlights any characters NOT in the chosen language
BibleGatewayFetch	12.04.23	Launches Bible references on BibleGateway
ReferenceNameDateMover	10.04.23	Moves forename/initials to before surname or move year to end

SpracheDE	09.04.23	Sets language as German
SpracheCH	09.04.23	Sets language as SwissGerman
LanguageSetUS	09.04.23	Sets language as US English
LanguageSetUK	09.04.23	Sets language as UK English
LanguageSetCanada	09.04.23	Sets language as Canadian English
ParticipleChanger	06.04.23	Toggles between past and present participles
MultiFileLoader	06.04.23	Loads a set of files
CommentAddToTrackedChanges	06.04.23	Adds a blank comment to every tracked change in the selected text
WildcardType	31.03.23	Reads the current 'Selection.Find' and types it in the file
WildcardSave	31.03.23	Reads the current 'Selection.Find' and saves at the top of the file
HyphenSpaceWordCount	30.03.23	Counts hyphenated word forms
PunctuationToDoubleQuote	26.03.23	Changes next quote mark to double curly
PunctuationToSpace	25.03.23	Change the next punctuation item to a space
PunctuationToSingleOpenGuillemet	25.03.23	Changes next quote mark to single open guillemet
PunctuationToSingleCloseGuillemet	25.03.23	Changes next quote mark to single close guillemet
PunctuationToPrime	25.03.23	Change next quote mark to single prime
PunctuationToNothing	25.03.23	Changes next punctuation mark to nothing, i.e. deletes it
PunctuationToNonBreakingThinSpace	25.03.23	Changes next space etc to a non-breaking thin space
PunctuationToNonBreakingEnDash	25.03.23	Changes next hyphen/em/en dash to a non-breaking em/en dash
PunctuationToMultiplySign	25.03.23	Changes next x or X to multiplication sign
PunctuationToHyphen	25.03.23	Changes the word break punctuation to a hyphen
PunctuationToHardSpace	25.03.23	Changes the next item to a hard space
PunctuationToFullPoint	25.03.23	Changes the next punctuation item to a full point
PunctuationToDoublePrime	25.03.23	Change next quote mark to double prime
PunctuationToDoubleOpenGuillemet	25.03.23	Changes next quote mark to double open guillemet
PunctuationToDoubleCloseGuillemet	25.03.23	Changes next quote mark to double close guillemet
PunctuationToDash	25.03.23	Changes next hyphen/em/en dash to an em/en dash
PunctuationToComma	25.03.23	Changes the next punctuation item to a comma
SwapWords	14.03.23	Swaps adjacent words
ParenthesesEtcPairDelete	14.03.23	Removes the following pair of parentheses or quotes, etc.
NoteMarkerMoveEndSentence	13.03.23	Moves the foot/endnote marker to the end of the sentence
FontNameSizeScanAndFix	13.03.23	Assesses and lists (& optionally fixes) the font sizes & names

FontNameSizeScanAndFix	13.03.23	Assesses and lists (& optionally fixes) the font sizes & names
BordersAddParagraphs	08.03.23	Adds colour borders to (partly) selected paragraphs
SuperscriptOnOff	05.03.23	Toggles superscript ON/OFF
SubscriptOnOff	05.03.23	Toggles subscript ON/OFF
ChapterStartBreak	05.03.23	Finds all chapter titles, adds page break and removes multi-newlines
WordHippoFetch	03.03.23	Launches selected text on Google
InstantFindDownWild	23.02.23	Finds selected text downwards wildcards set
ColonLowercaseAll	17.02.23	Changes the initial letter after every colon to lowercase
SentenceRoughRepeatChecker	14.02.23	Unprotects the current file
SentenceExactRepeatChecker	14.02.23	Unprotects the current file
MultiFileText	07.02.23	Collects text plus simple formatting from multiple files
MoveToStart	06.02.23	Moves the selected text to the beginning of the sentence
QuotesOffBothEndsDoubleAddItalic	03.02.23	Removes double quotations marks from both ends of a text + italicises
ProperNounsInSectionsMultiword	30.01.23	Collects multi-word proper nouns by section and alpha lists
BackgroundPatternStyleChecker	26.01.23	Searches for text style with background pattern applied
GoogleFetchCookie	25.01.23	Launches selected text to Google website with cookie prompt
PunctuationItalicOff	20.01.23	Un-italicises all commas etc not followed by italic text
SpacedFontFinder	19.01.23	Finds and highlights/underlines any text with odd spacing
FindHashAndStyleNext	19.01.23	Finds a hash and changes the style of the following paragraph
SpecialSortsLister	18.01.23	Collect all special sorts in a file
NotesCopyToInline	18.01.23	Copies notes into inline notes in brackets
QuoteSingleToDoubleGlobal	15.01.23	Changes single quotes to double, avoiding apostrophes
NumberTextFigureCount	14.01.23	Counts numbers as figures vs. words
MacroSelect	12.01.23	Selects the current macro text
ScreenColourSwitch	01.01.23	Switches colour text and background on/off
FullNameAlyseCaseCount	23.12.22	Counts each of a list of words/phrases
PhraseCount	22.12.22	Counts each of a list of words/phrases
HeadingStylesAutomatic	13.12.22	Automatically adds styles to headings
JumpScroll	12.12.22	Scrolls current line to the top of the page
ApostropheAdd	08.12.22	Adds an apostrophe, highlighted
EquationSpacer	06.12.22	Adds spaces either side of equations that butt up to some text
NumberTotaller	30.11.22	Sums the numbers within the selected text (or checks the sum)
FieldsUnlink	30.11.22	Unlinks all fields except equations

NotesFootEndSwitch	22.11.22	Switches individual footnote <-> endnote (in note or in text)
PDFspellIgnoreProperNouns	17.11.22	Underlines all spelling errors except proper nouns
HardSpaceAfterSuperscriptNumbers	17.11.22	Switches space to hard space after all superscripted number
OddQuoteSpacingCorrectAll	16.11.22	Corrects the odd spacing on quotation marks (due to RTL fonts)
HighlightComments	16.11.22	Highlights all comments that have specific prefixes
CommonCode	16.11.22	Not a macro - just useful computer code
SelectSentence	12.11.22	Selects the current sentence + next sentence right
CapperMin	12.11.22	Lowercases initial letter of capitalised words (sentence case)
HeadersFootersRemove	11.11.22	Removes all headers and footers in all sections
StrikeItalicParagraphs	04.11.22	Add single strike to all italic paragraphs
ListAllHeadings	04.11.22	Creates a list of all headings by style name
PDFspellAll	27.10.22	Underlines all spelling errors
CambridgeDictionaryFetch	24.10.22	Launches selected text on Cambridge Dictionary
MoveNextSentence	18.10.22	Moves the cursor to the start of the next sentence
PunctuationAfterCitation	17.10.22	Moves the full point (period) to after the citation
MarkupModeSwitch	12.10.22	Switches between inline and in-balloon markup
QuotesToGuillemets	08.10.22	Changes all double and single quotes (inc. German) into guillemets
FourDigitHundreds	04.10.22	Changes four-figure numbers to words
SentenceReverse	02.10.22	Switches the order of the two sentences in the bullet point
FinalCharDelete	24.09.22	Removes the final character or punct off a word
ConsolidateTracking	24.09.22	Turns split tracking into a single change
AsWellAsToAnd	24.09.22	Changes 'as well as' to 'and', and the comma, if necessary
HighlightMissingDialoguePunctuation	22.09.22	Highlights missing dialogue punctuation (from an idea by Katherine Kirk)
ConsolidateTrackingAll	17.09.22	Consolidates tracking on all words within selection or all text
QuotesOffBothEndsSingle	03.09.22	Removes single quotations marks from both ends of a text
QuotesOffBothEndsDouble	03.09.22	Removes double quotations marks from both ends of a text
WordPairPunctuate	31.08.22	Makes word pair hyphenated or single word
ItalicHighlightNotQuotes	31.08.22	Finds italic text (but not in quotes) and highlights it

ProperNounAlyseES	30.08.22	Analyses similar proper nouns
NumberToTextCMOS	29.08.22	Converts next number into text, using e.g. "fourteen hundred"
SomethingFetch	28.08.22	Launches selected text to Xyz website.
CMOSFetchAlt	28.08.22	Launches selected text to CMS website.
CMOSFetch	28.08.22	Launches selected text to CMS website
SomethingFetchAlt	27.08.22	Launches selected text to Xyz website.
CommentAdder	23.08.22	Adds a comment off a menu
MacroFetchUpdate	21.08.22	Updates an existing macro, preserving the keystroke
FinalPhraseMoveForward	11.08.22	Cuts the final phrase of a sentence and pulls it to just after the cursor-word
BoldThisWord	11.08.22	Makes the word at the cursor bold
AllCapsToItalicNext	11.08.22	Finds next word in all caps and makes it italic
FindFetch	08.08.22	Shell macro for making your own macro:
FindAndDoRng	08.08.22	Finds something specific and does things to each one
FindAndDo	08.08.22	Finds something specific and does things to each one
AllCapsToItalic	08.08.22	Finds words in all caps and makes them italic
ThatWhich	06.08.22	Changes that to which and vice versa
MerriamCollegiateFetch	02.08.22	Launches selected text to Merriam-Webster collegiate website
ProperNounAlyse	26.07.22	Analyses similar proper nouns
OddQuoteSpacingCorrectSingle	26.07.22	Corrects the odd spacing on double quotation marks
ColonUppercaseAll	23.07.22	Changes the initial letter after every colon to lowercase
InitialSwapperReverse	22.07.22	Swaps initials and surname (Beverley, P.E. -> P.E. Beverley)
FontFunniesClearAll	22.07.22	Changes all text in this specific font into the default font
GoogleBooksFetch	20.07.22	Launches selected text on Google Books
DeleteToNextPunctuation	20.07.22	Deletes from end of current word to the next punctuation mark
BibleHubFetch	20.07.22	Launches selected text on BibleHub
CountPhrase	18.07.22	Counts this word or phrase
Pluralise	15.07.22	Tries to make the current word plural
LoadFilesInList	29.06.22	Loads a series of files in a Word file list
CopyFullFilename	29.06.22	Loads full filename of current document into clipboard
CommentJumpToText	22.06.22	Moves the cursor from the comment back into the text
AcceptTrackedFormatChanges	21.06.22	Accepts just the formatting track changes
Confusables	17.06.22	Highlights/colours list of words in confusables file
AbbreviationAdd	15.06.22	Creates an abbreviation of roughly selected

		text (in parenthesis)
PunctuationToNonBreakingEmDash	14.06.22	Changes next hyphen/em/en dash to a non-breaking em dash
NamesReverse	13.06.22	Switches two names and adds (or removes) the comma
CommentJumpInOut	13.06.22	Jumps in and out of comment text
TablesMarkAllEmptyCells	09.06.22	Adds some dummy text into every empty cell
ParenthesesAdd	06.06.22	Puts parentheses round the current word or phrase
InitialSwapper	06.06.22	Swaps initials and surname (P.E. Beverley - > Beverley, P.E.)
PunctuationSwapInDialogue	03.06.22	Swaps the next punctuation mark
PunctuationSwap	03.06.22	Swaps the next punctuation mark
Italiciser	03.06.22	Toggles italic for next character or selected text
Ampersand	03.06.22	Changes next ampersand to 'and'
NumberToTextUK2	01.06.22	Convert next number into text
NumberToText2	01.06.22	Convert next number into text
MultiSearchLoader	31.05.22	Loads text segments into MultiSearch
TeAkaFetch	29.05.22	Launches selected text on the Maori dictionary Te Aka
MultiSearchUp	28.05.22	Searches for a set of words in proximity
MultiSearch	28.05.22	Searches for a set of words in proximity
SuperscriptSwitch	17.05.22	Toggle subscript
SubscriptSwitch	17.05.22	Toggle superscript and subscript
CommentDeleteMoveNext	17.05.22	Deletes current comment and moves to the next comment
MacroLauncher	12.05.22	Offers a list of macros to launch (was called "MacroMenu")
RAEfetch	10.05.22	Launches selected text on Real Academia Española
DTMEfetch	10.05.22	Launches selected text on
ItalicSpeechToSingleQuotes	04.05.22	Finds italic text, Romanises it and adds single quotes
Boldiser	03.05.22	Toggles bold for next character or selected text
HighlightAllTrackedText	15.04.22	Highlights (and/or font colours) all tracked text
ChronologyChecker	15.04.22	Copies paragraphs containing date references into a new file
DayDateAlyse	10.04.22	Lists words out of a proper noun frequency list
BinomialAdder	04.04.22	Adds Latin binomials into a document
DictionaryFetchByLanguage	21.03.22	Checks the current word in a language-related dictionary
ShortTitleUnderline	17.03.22	Underlines the current author name(s)
ShortTitleAlyse	17.03.22	Analyses Short titles to check references against citations

SpeciesAbbreviator	12.03.22	Adds genus and species to the text, pulling data off a file
TracksInlineToggle	07.03.22	Toggles track change deletions between bubbles and inline
ReviewPaneToggle	03.03.22	Opens and closes the track change review pane
SpellingErrorLister	02.03.22	Generates an alphabetic list all the spelling 'errors'
SigloSmallCaps	24.02.22	Finds "siglo" and small-caps the IVX following
TrackAcceptMoveOn	19.02.22	Accepts change and moves to the next
YearMoveToEnd	16.02.22	Moves the year to end of reference
FindInProximity	12.02.22	Finds certain words within a given word range
FReditListProcess	08.02.22	Tidies up a spelling FRedit list from cursor downwards
ProperNounToFRedit	04.02.22	Picks up alternative spellings in a PN query list for a FRedit list
HyphenationToFRedit	04.02.22	Creates FRedit items from HyphenAlyse or PropernounAlyse files
FindColouredTextUp	03.02.22	Finds coloured text upwards
ClearHighlightAndColour	28.01.22	Removes all highlighting, coloration and (optionally) underlining
HighlightFindUp	27.01.22	Selects the previous piece of highlighted text
HighlightFindDown	27.01.22	Selects the next piece of highlighted text
SerialCommaAlyse	25.01.22	Highlights things that might be lists with serial commas (or not)
ItaliciseVariable	25.01.22	Runs along, finds sets of alpha chars and italicises them
WordPairAlyse	20.01.22	Creates a file of all the adjacent word pairs
MegAlyse	20.01.22	Launches a selected series of analysis macros
ParagraphLineLengthHighlighter	11.01.22	Highlights any paragraphs longer than a number of lines
ParagraphShrink	07.01.22	Shrinks the current paragraph (for use with CitationAlyse)
InstantFindUp	07.01.22	Finds selected text upwards
MacroRunNoTC	01.01.22	Runs an analysis on track-accepted text
ChicagoNoteReferenceAlyse	31.12.21	Helps to check note-based reference citations
GoogleScholarFetch	06.12.21	Launches selected text on Google Scholar
AcronymAlyse	27.11.21	Lists all acronyms, with frequency
ForumTextFormat	21.11.21	Converts text from Word to Forum and vice versa
MacroFetchKeystrokeReadMac	20.11.21	Reads and restores a macro's keystroke while upgrading
MacroFetchKeystrokeRead	20.11.21	Reads and restores a macro's keystroke while upgrading

PunctuationToThinSpace	19.11.21	Changes the next item to a thin space
PunctuationToMultiplySign	19.11.21	Changes next x or X to multiplication sign
PunctuationToEnDash	19.11.21	Changes next hyphen/em/en dash to an en dash
PunctuationToEmDash	19.11.21	Changes next hyphen/em/en dash to an em dash
GoogleFetchUS	18.11.21	Launches selected text on Google.Com
GoogleFetchQuotesUS	18.11.21	Launches selected text - with quotes - on Google.Com
GoogleFetchQuotesCA	18.11.21	Launches selected text - with quotes - on Google Canada
GoogleFetchQuotes	18.11.21	Launches selected text - with quotes - on Google
GoogleFetchIndia	18.11.21	Launches selected text on Google
GoogleFetchCA	18.11.21	Launches selected text on Google Canada
CommentPrevious	14.11.21	Goes to previous comment
CommentNext	13.11.21	Goes to next comment
OpenmySize	02.11.21	Opens the window to a particular size, position and magnification
LanguageToggle	01.11.21	Toggles the language setting of (part selected) text
ParaDelete	29.10.21	Deletes the current paragraph
CompareNow	26.10.21	Creates an instant comparison of two open Word files
ItalicBinomial	25.10.21	Italicises binomials
CopySelectedForCompare	23.10.21	Copies the selected text to a specified file
MultiFileAcceptTrackChanges	21.10.21	Accept track changes in multiple files
WikiFetchDE	18.10.21	Launches selected text on Wikipedia
WikiFetch	18.10.21	Launches selected text on Wikipedia
OneLookFetch	18.10.21	Launches selected text to OneLook.com
NgramFetch	18.10.21	Launches selected text on Google Ngram
GoogleFetchQuotesDE	18.10.21	Launches selected text - with quotes - on Google
GoogleFetchDE	18.10.21	Launches selected text on Google
FormatText	15.10.21	Formats a word/selection of whole words
SwapPreviousCharacters	06.10.21	Switches the two chars in front of the caret
SwapCharacters	06.10.21	Switches characters either side of caret
PunctuationBoldOff	06.10.21	Un-bolds all commas, etc. not followed by bold text
MultifileXML	01.09.21	Save a folder full of files as XMLs
TimestampRemover	29.08.21	Deletes all timestamps of the form: nn:nn:nn<sp>
MacroFetch	21.08.21	Fetches the macro named in the clipboard or at the cursor
FunnyDashToEnDash	06.08.21	Changes all funny dashes to proper en dash
HighlightToStyles	03.08.21	Finds highlighted text and does things to each colour
IZ_words	02.08.21	Exceptions for IZtoIS
CommentsModernDelete	02.08.21	Deletes current comment or all comments

CommentsModernCollect	02.08.21	Extracts modern comments with format and colouring
FootnoteTidy	30.07.21	Checks each footnote
GoogleTranslate	11.07.21	Launches selected text to GoogleTranslate
MultiFileFRedit	10.07.21	Multi-file version of FRedit
LongParagraphHighlighterChars	23.06.21	Highlights all paragraphs more than a certain length
GermanAccusative	18.06.21	Forces the accusative -en ending to the current word
FontColourSame	18.06.21	Colours all occurrences of this text in this colour
CheckCapSentences	18.06.21	Forces an initial capital on every sentence
DictionaryMultipleFetch	17.06.21	Launches selected text to dictionary.com and other dictionaries
FindBackCase	16.06.21	Next case-sensitive find backwards
SmallCapWord	15.06.21	Makes the current word smallcaps
However	15.06.21	Starts a sentence with 'However', and removes the later "however"
QQConvert	14.06.21	Converts QQ comments to ordinary comments
EmDashUnspaced	14.06.21	Removes punctuation, adds unspaced em dash and lowercases next char
InitialCapAllCapsWords	03.06.21	Initial caps the all-caps words in a document
QQAddMenu	01.06.21	Adds a QQ comment from a user-set menu
ScareQuoteAdd	29.05.21	Add single quotes round a word
JoinTwoWords	29.05.21	Joins two words
SplitScreen	28.05.21	Splits the screen
QQUpdate	28.05.21	Renumbers QQ comments
PluraliseDE	23.05.21	Toggles the ending plural/singular
DuplicateSentenceCount	21.05.21	Counts frequency of any duplicated sentences + highlights
AuthorSurnameSwap	19.05.21	Moves author surname in a list to the beginning of the line
FontMixHighlight	17.05.21	Highlights paragraphs with mixed fonts, showing odd fonts
FontMixFind	16.05.21	Finds the next paragraph that has mixed fonts
CommentsPane	11.05.21	Opens and closes the Comments pane
URLlinksVisible	01.05.21	Unlinks all the URLs in the selection or the whole file
SelectToSentenceEnd	23.04.21	Selects from current word to end of sentence
DeleteBackToSentenceStart	23.04.21	Selects from current word to end of sentence
CopyAllEditedSentences	20.04.21	Copies all sentences that have tracked edits in them
WordsMoveRight	15.04.21	Moves the partly selected words one word right
WordsMoveRight	15.04.21	Moves the partly selected words one word right
WordsMoveLeft	15.04.21	Moves the partly selected words one word

		left
ContentControlsRemove	14.04.21	Moves the partly selected words one word right
SpellingErrorHighlighter	11.04.21	Highlights all spelling errors
PrepareToReplaceWithMarker	10.04.21	Copy text into the F&R box from top leaving marker
PrepareToReplaceFromTop	10.04.21	Copy text into the F&R box from top
PrepareToReplaceDownTCoff	10.04.21	Copy text into the F&R box
PrepareToReplaceDown	10.04.21	Copies selected text into the F&R box
NavPaneLoad	10.04.21	Copies selected text into the F&R box
PDFrunningHeadHighlight	09.04.21	Locates running heads and highlights/enlarges page number
AbstractAndKeywordCount	09.04.21	Counts abstract word numbers and keyword items
FontLister	07.04.21	Lists all font names in selected text or whole file
PageCountBySection	03.04.21	Counts the pages between section headings
NormaliseText	03.04.21	Sets Normal style and removes (some) formatting
CountSectionWords	03.04.21	Counts words in sections of text between headings
CountChapterPages	03.04.21	Counts words in sections of text between headings
MultiFilePageCount	30.03.21	Counts pages in a group of files
MatchSingleQuotes	18.03.21	Check whether single quotes match up
ColourMinus	16.03.21	Removes or adds font colour in a choice of colours
FullNameAlyse	24.02.21	Creates a frequency list of all full names
FReditListChecker	18.02.21	Checks for possible anomalies in a FRedit list
PeriodInDialogue	17.02.21	Make adjacent words into sentence end
FullPointInDialogue	17.02.21	Make adjacent words into sentence end
CommaInDialogue	17.02.21	Give adjacent words a comma link
TemplatesFolderAddressMac	10.02.21	Loads the clipboard with the address of your Templates folder
DeleteCommentsSelectively	10.02.21	Accepts track changes of specific author/editor
AcceptTrackingSelectively	10.02.21	Accepts track changes of specific author/editor
WordSwitch	06.02.21	Scripted single-word switching
IZIScount	06.02.21	Counts IS/IZ spellings
FReditListMenu	06.02.21	Provides a menu to run different FRedit lists
DictaFRedit	06.02.21	Adds features to Word 365 Dictate, and cleans up it errors
ClipCopy	06.02.21	Copies the selected text into a ClipStore file
CharacterSwitch	06.02.21	Scripted character switching
CharToVariousAccents	01.02.21	Adds various accents
CharToUmlaut	01.02.21	Adds various accents
CharToGrave	01.02.21	Adds a grave acute accent to the next vowel

CharToCircumflex	01.02.21	Adds a circumflex to the next vowel
CharToAcute	01.02.21	Adds an acute accent to the next vowel
FReditHeadingsOnly	30.01.21	Run FRedit, but only on similarly formatted text
URLlink	23.01.21	Makes the URL/email at the cursor a clickable link
WordGraph	16.01.21	Gives a visual indication of the occurrences of a word or phrase
SortListInText	16.01.21	Sorts items in a list in the text alphabetically.
SearchThenMultiSwitch	16.01.21	Finds one of your words, then calls MultiSwitch to change it
SearchThenChange	16.01.21	Finds one of the words from a list, then changes to its alternate
PunctuationOffRight	16.01.21	Removes the punctuation off a word end (and quote off start)
NumberToFigure	16.01.21	Converts the next number to a figure
MacroUpdater	16.01.21	Updates to the current macro text, preserving the keystroke
ListOfTextParas	16.01.21	Lists all paragraphs (pure text) starting with certain text
ListOfParas	16.01.21	Lists all paragraphs (formatted text) starting with certain text
ListOfList	16.01.21	Lists all items in a list that contain a particular text
ListOfFound	16.01.21	Lists all occurrences of selected text
IndexChecker	16.01.21	Lists all pages on which this word(s) occur(s)
HighlightSame	16.01.21	Highlight all occurrences of this text in this colour
HighlightOffWord	16.01.21	Remove highlight from all occurrences of this word
CommentListNumbered	16.01.21	List all comments in file with index numbers
CitationListSortByYear	16.01.21	Sorts items in a citation list in the text by date.
AuthorInitialCapitalReferences	16.01.21	Changes author surnames in all capitals to initial capital
AuthorCaseChange	16.01.21	Lowercases author surnames (e.g. SMITH, J. to Smith, J.) in references list
AAAnalyse	16.01.21	Checks a's and an's for agreement with the following word
TypeA	15.01.21	Types 'a' or 'A', (or 'an' or 'An') between two words
SmartFinder	15.01.21	Finds this text/note/page/etc, etc immediately.
URLlauncher	14.01.21	Launches successive URLs from the text
SwapThreeWords	14.01.21	Swaps three adjacent words (A and B to B and A)

SpellWordChange	14.01.21	Accepts Word's spelling suggestion for current word
DeleteRestOfSentence	14.01.21	Deletes from end of current word to the end of the sentence
AddTextRoundText	14.01.21	Adds text at either end of a word or phrase (can delete punctuation)
TableStripper	13.01.21	Strips out all tables into a separate file
NotesReEmbedByNumber	13.01.21	Re-embed footnotes or endnotes by number
InstantJumpUp	13.01.21	Find selected text upwards
StylesPaneCustomize	12.01.21	Moves the Styles pane where and how you want
NavPaneWidth	12.01.21	Widens the navigation pane
NavPaneCustomize	12.01.21	Opens the navigation pane where and how you want
InstantJumpDown	12.01.21	Find selected text downwards
GoogleSSFatch	12.01.21	Uses Google to search a single specific site
FindReplaceGo	12.01.21	Finds, replaces and moves to the next match
FindClipTop	12.01.21	Jumps to the top, and finds whatever is in the clipboard
FindClip	12.01.21	Find whatever is in the clipboard
RenumberNotes	02.12.20	Renumbers all note numbers in selected text
SpecialWordSpellAlyse	01.12.20	Does a ProperNounAlyse of all long 'spelling error' words
RenumberSuperscript	28.11.20	Renumbers all superscript numbers
MultiFileWord	28.11.20	Multiple Word file concatenation
UnifyFormatForwards	27.11.20	Make end of para (or selection) same format as the start
UnifyFormatBackwards	27.11.20	Makes start of para (or selection) same format as the end
CenturyAlyse	25.11.20	Analyses how centuries are formatted in a document
TheFindAshortMacro	24.11.20	Finds a macro shorter than a certain length
NotesInlineToEmbed	24.11.20	Copies in-line notes into embedded notes
DIYFormatHeadwords	24.11.20	Adds a character style to the first word of every para in a given style
DIYColourLongWords	24.11.20	Adds a highlight to sentences longer than 40 words
DIYColourLongSentences	24.11.20	Adds a highlight to sentences longer than 40 words
FormatHeadwords	22.11.20	Adds a character style to the first word of every para in a given style
BLcatalogueFetch	21.11.20	Launches selected text on Google
WhatsAppTextFormat	11.11.20	Converts text from Word to WhatsApp formatting
ListAlyse	11.11.20	Makes a list of all the 'list' items - then you can analyse them!
EquationsAllItalic	02.11.20	Makes all equations in the current selection italic
RedTagger	28.10.20	Colours all tags red

CopyTextVerySimple	28.10.20	Creates a text-only copy, with no features preserved
SrikeAllHighlightText	25.10.20	Adds strikethrough to all highlighted text
PhrasesInSentences	25.10.20	Lists all sentences containing a give phrase
FReditSelect	21.10.20	Runs FRedit, but only on multiply selected text
EquationsHighlightAll	10.10.20	Highlights all maths items
PDFpageNumberer	30.09.20	Adds page numbers to each line of an exported PDF text
MerriamUnabridgedFetch	13.09.20	Launches selected text to Merriam-Webster unabridged website
MerriamThesaurusFetch	13.09.20	Launches selected text to Merriam-Webster thesaurus website
MerriamMedicalFetch	13.09.20	Launches selected text to Merriam-Webster medical website
MerriamLegalFetch	13.09.20	Launches selected text to Merriam-Webster legal website
LawDictionaryFetch	13.09.20	Launches selected text to Dictionary.Law website
TagsShowHide	08.09.20	Changes tags into hidden text and then reveals them again
FirstLineIndentToTab	07.09.20	Changes all first-line indents to a tab
ReverseList	05.09.20	Reverses the order of items in a list
AuthorNameReinsertParens	05.09.20	Replaces the dash-and-comma for the author's name (parenthesis)
AuthorNameReinsert	05.09.20	Replaces the dash-and-comma for the author's name
SpellingErrorListerBilingual	03.09.20	Generates an alphabetic list all the bilingual spelling 'errors'
ChangeNext	29.08.20	Finds next change (but not comment)
TitleInQuotesCapperGlobal	25.08.20	Uppercases the initial letter of all major words (title case)
TitleInQuotesCapper	25.08.20	Uppercases the initial letter of all major words (title case)
MultiFileShowHiddenText	25.08.20	Unhides hidden text in multiple files
BackgroundColourOnOff	25.08.20	Switches background colour on/off
EtAlElision	24.08.20	Crops multi-authors to a given number before 'et al'
JumpNextAppliedStyle	11.08.20	Jumps to the next applied style
WikiFetchNL	08.08.20	Launches selected text on WikipediaNL
ThesaurusFetchNL	08.08.20	Launch selected text to <a href="https://synoniemen.net">https://synoniemen.net</a>
ThesaurusFetchDE	08.08.20	Launch selected text to <a href="https://openthesaurus.de">openthesaurus.de</a>
ThesaurusFetch	08.08.20	Launch selected text to <a href="https://thesaurus.com">thesaurus.com</a>
PubMedFetch	08.08.20	Launches selected text to PubMed
OUPFetch	08.08.20	Launches selected text to OUP
MacquarieFetch	08.08.20	Launches selected text to the Macquarie dictionary
GroeneBoekjeFetch	08.08.20	Launches selected text to

		<a href="https://woordenlijst.org">https://woordenlijst.org</a>
GoogleFetchQuotesNL	08.08.20	Launches selected text - with quotes - on GoogleNL
GoogleFetchNL	08.08.20	Launches selected text on GoogleNL
FileOpener	08.08.20	Menu system to select and load a file(s)
DictionaryFetchNL	08.08.20	Launches selected text to <a href="https://www.vandale.nl">https://www.vandale.nl</a>
DictionaryFetchDE	08.08.20	Launches selected text to <a href="https://www.duden.de">duden.de</a>
DictionaryFetch	08.08.20	Launches selected text to <a href="https://www.dictionnaire.com">dictionary.com</a>
Chirimbolos	04.08.20	Chirimbolos - WhatChar in SPANISH by Marcela Ronaina
LongQuoteNext	01.08.20	Jumps to the next long quotation
ItalicQuoteToggle	13.07.20	Toggles between italic and single or double quote
FigTableBoxLister	09.07.20	Finds figure/table/box elements and their citations
AddKeys	08.07.20	Adds keybindings to macros
BibSortWithDittos	07.07.20	Sorts bibliographic list including ditto marks
MacroMenuForMac	04.07.20	Offers a list of macros to launch
MacroLauncherForMac	04.07.20	Offers a list of macros to launch (was called "MacroMenuForMac")
UnlinkCitationsAndRefs	29.06.20	Unlinks reference citations (ignoring equations)
FindFwdAll	27.06.20	Moves forward to next match: text > notes > comments
FontColourDocumentSplit	25.06.20	Splits a document into coloured and not coloured
NumberParasTagged	18.06.20	Adds numbering to first-level headings tagged with <a>
CleanUp	10.06.20	Cleans up a file by F&R
CopyHighlightedTextSentences	09.06.20	Copies sentences containing highlighted text into a new file
QuotationMarkErrorFinder	28.05.20	Moves to the next mismatched double quotes
SpellCheckerPlus	27.05.20	Spellchecks from cursor, using multiple languages
ExceptionsListEdit	27.05.20	Allows the user to edit, add to or replace the exceptions list
SpellingShowToggle	25.05.20	Switches visible spelling error indication on and off
HighlightOddQuotations	25.05.20	Marks all quotes + displayed text
QuotationMarker	21.05.20	Marks all quotes + displayed text
TrackDateTimeList	13.05.20	Lists the date and time of all track changes
LoadTheseFiles	13.05.20	Loads all the files listed in a file list
FixedFontRed	13.05.20	Sets font to an 'almost' red font colour
FixedFontBlue	13.05.20	Sets font to an 'almost' blue font colour
FixedFontBlack	13.05.20	Sets font to an 'almost' black font colour
CommentsDeleteSelectively	13.05.20	Deletes all comments that have a specific tag

BookmarkTempFind	29.04.20	Go to temporary marker
ConcordanceMaker	17.04.20	Creates a concordance list
FrequencyWordLength	15.04.20	Creates a histogram of word lengths
FrequencySentenceLength	15.04.20	Creates a histogram of sentence length
FrequencyParagraphLength	15.04.20	Creates a histogram of paragraph length
ClipPasteTextOnly	15.04.20	Collects and pastes an item from a clip list
ClipPaste	15.04.20	Collects and pastes an item from a clip list
MenuItemMaker	13.04.20	Creates a histogram of paragraph length
VancouverCitationChecker	11.04.20	Finds all citations and creates a list
BackgroundColourOff	11.04.20	Removes background colour
BackgroundColourAllOff	11.04.20	Removes all background colours
ZifferWort	06.04.20	Converts the next number (1 to 12) into German text
RefCitationConvert	04.04.20	Converts superscripted ref. citations to bracketed
CountDownVisible	03.04.20	Shows a statusbar and Big Text countdown to zero
LongParagraphHighlighter	25.03.20	Highlights all paragraphs more than a certain length
LongParagraphCheck	25.03.20	Colour long sentences
QuoteExtractor	23.03.20	Copies paragraph that contain italic text and are indented or contain quotes
ClipStore	20.03.20	Copies the selected text into a clip list
ClipPaste_1	20.03.20	Collects and pastes a numbered item from a clip list
CommentChangeScope	04.03.20	Reduces or extends the scope of a comment
ListUppercaseNoPunct	29.02.20	Uppercases the initial character + removes end punctuation
URLunlinker	28.02.20	Unlinks all the URLs in the selection or the whole file
RevisionsHighlight	19.02.20	Highlights all the edits in a text
TitleHeadingCapper	18.02.20	Uppercase initial letter of all major words (title case)
HeadingSentenceCase	18.02.20	Sentence cases this selection or paragraph (but not acronyms)
CurlyQuotesToggle	18.02.20	Switches on auto curly quotes on and off
MultiFileTextForMac	17.02.20	Collects text plus simple formatting from multiple files
TrackSimplifier	13.02.20	Accepts certain types of tracked features
RulersShow	10.02.20	Switches Word's ruler on and off
InitialiseFornamesInList	10.02.20	Changes forenames within a list to initials
OxfordCommaSelectiveDelete	07.02.20	Moves to next Oxford comma and/or deletes current comma first
AccentedWordCollector	03.02.20	Creates a list of all the accented words in a text
TaggedTextToSmallCaps	01.02.20	Finds tagged text, lowercases it and changes to small caps
AcronymsToSmallCaps	01.02.20	Finds all acronyms (in text or selection) and changes to small caps

TitleInSquaresCapperFR	22.01.20	Uppercase initial letter of all major words (title case)
TenseChanger	18.01.20	Finds one of the words from a list, then changes to its alternate
NumberToTextMultiSwitch	18.01.20	Finds a number, then calls MultiSwitch to change it
DeSexer	18.01.20	Finds one of your words, then calls MultiSwitch to change it
PunctuationToSingleQuoteFR	11.12.19	Changes next quote mark to French single curly
PunctuationToSingleQuoteDE	11.12.19	Changes next quote mark to German single curly
PunctuationToDoubleQuoteFR	11.12.19	Changes next quote mark to French double curly
PunctuationToDoubleQuoteDE	11.12.19	Changes next quote mark to German double curly
MoveWordRight	30.11.19	Moves current word one word to the Right
MoveWordLeft	30.11.19	Moves current word one word to the right
ListRenummer	30.11.19	Makes all following numbered items in a list consecutive
MacroVersionChecker	18.11.19	Checks Paul Beverley - Version dates of all your macros against MacroList
MacrosAllRestore	18.11.19	Adds keybindings from a list of macro names
MacrosAllBackup	18.11.19	Creates a list of all macro keystrokes
CompareTexts	14.11.19	Compares copied text (i.e. clipboard contents) with selected text
SerialCommaCounter	12.11.19	Counts serial (or not) commas in lists
SortIt	02.11.19	Sort the selected text
SuperscriptNumberFormatter	28.10.19	Corrects spaces + punctuation on superscripted numbers
PDFHyphenRemover	28.10.19	Finds all end-of-line hyphens, joining back to the next word
MakeOKwordsList	26.10.19	Makes a list of all words not highlighted
PDFHyphenChecker	25.10.19	Checks the line-end hyphenation of a converted PDF
Enigmatizer	25.10.19	Obfuscates/anonymises the current file
EmailLinker	18.10.19	Finds all email addresses in the text and links them
CommentsDeleteAllNotTagged	17.10.19	Deletes all comments *not* starting with a specific tag
CommentsAddIndexOnInitials	17.10.19	Adds (and removes) serial numbers to initials in comments
RemoveNumbersFromHeadings	15.10.19	Removes automatic numbering from headings
BordersPrevious	10.10.19	Finds previous paragraph with borders
BordersNext	10.10.19	Finds next paragraph with borders
AutoTagger	30.09.19	Tag/code automatically
SentenceAlyse	28.09.19	Analyse the lengths of sentences

DocAlyseForMac	28.09.19	Analyses various aspects of a document
VerbChangerNLglobal	13.09.19	Changes Dutch verbs through the whole file
VerbChangerNL	13.09.19	Changes Dutch verbs in current sentence
SelectPreviousHighlight	13.09.19	Selects the previous piece of highlighted text
SelectNextHighlight	13.09.19	Selects the next piece of highlighted text
SearchTheseWords	13.09.19	Finds the next occurrence of any of a list of words
MendeleyPunctuationCorrection	13.09.19	Moves punctuation marks to before the note indicator
CharToMacron	13.09.19	Adds a macron accent to the next vowel
CapitaliseUndoubler	13.09.19	Finds doubled capital letters and corrects them
BoldFirstOccurrence	13.09.19	Emboldens the first occurrence of words in a list
RepeatedWordsInSentences	12.09.19	Highlights any words duplicated within a given sentence
DialoguePunctuationSwitch	12.09.19	Switches adjacent word link between comma and full point
StyleEffectDetector	10.09.19	Reports the style and effects applied to the text
AlphaHeadersOnIndex	10.09.19	Adds alpha headers to an index
FormatAlyse	07.09.19	Highlights various formatting features
FieldAlyse	06.09.19	Counts all fields of different types
FReditSame	21.08.19	Create FRedit item with ^&
LinesToParagraphs	16.08.19	Converts lots of individual lines of text into paragraphs
TablePrevious	14.08.19	Steps through tables, one by one
TableNext	14.08.19	Steps through tables, one by one
TableBordersToggle	14.08.19	Switches table borders and rules on and off
StyleDetector	14.08.19	Displays or speaks the current style name
FontColourReader	14.08.19	Reads style font colour + any applied colour
CommentInitialReplaceAll	14.08.19	Changes all comment initials
CommentInitialFandR	14.08.19	Finds and replaces comment initials
CommentNumbering	20.05.19	Add or remove fixed comment numbers
ParaSentenceLengthHighlighter	16.05.19	Highlights paragraphs with too many sentences
DeleteAllSpellingErrors	08.05.19	Deletes all spelling errors
HighlightWithTrackChange	03.04.19	Use allcaps, smallcaps, underline for tracking highlighting
ListofHeadings	06.12.18	Create a list of all headings
DraftViewToggle	05.12.18	Switches between draft view and print view
FontNameAndSizeReader	21.11.18	Reads style font Name + any applied Name
VerseListFormat	09.11.18	Formats list(s) or poem verse(s) with manual linebreaks
MiniFRedit	15.10.18	Adds attributes to certain words
ItalicisePhrase	04.10.18	Selects text up to next punctuation mark and makes it italic
FindInContextLoad	04.10.18	Loads name and date ready for FindInContext macro

HighlightNotThisSize	03.10.18	Highlights all text NOT the same size as the current text
UnderlineStyle	01.10.18	Changes the underline style of underlined text
SurnameSorter	01.10.18	Sorts a name list on surname, but allowing for postfixes
TypeTimesX	25.09.18	Types '(×2)' then moves back to the number, ready to increase it
MoveToNextQuote	25.09.18	Moves cursor to the next quote pair
DeleteSentenceAfterQuote	25.09.18	Deletes rest of sentence after current quote
QuoteCopier	24.09.18	Copies text from one quote pair to the next
NumberSequenceCheckerSimple	24.09.18	Checks consecutivity of numbering
NumberSequenceCheckerDecimal	24.09.18	Checks consecutivity of numbering containing decimal point
MultifileTrackChangeReport	24.09.18	Creates a file of sentences containing TCs in multiple files
ListOfTaggedHeadings	21.09.18	Lists all tagged headings, <A>, <B>, etc
HighlightCertainCharacters	21.09.18	Highlights certain characters with attributes
FReditListCreate	20.09.18	Adds text to list items and applies formatting
SortAndRemoveDups	19.09.18	Sort the selected text
ItalicWordList	19.09.18	Creates a list of all words in italic
FileLister	19.09.18	Lists all files in a folder
FandRdespiteTCsSelective	19.09.18	Does current F&R despite track changes (selective)
FandRdespiteTCsGlobal	19.09.18	Does current F&R despite track changes (global)
DeleteAllFootnotes	19.09.18	Delete all footnotes
DeleteAllEndnotes	19.09.18	Delete all endnotes
CommaAddPrevious	19.09.18	Adds a comma before the current word
InitialCapAlyse	17.09.18	Highlight possible capitalisation inconsistency
ContentsListerByTag	17.09.18	Creates a contents list from tags, <A>, <B>, etc.
AcronymLister	17.09.18	List all acronyms
FootnoteAdd	27.08.18	Creates a new footnote (in a given style and/or sq. brackets)
FootnoteAdd	27.08.18	Creates a new footnote (in a given style)
AlphabeticOrderByLine	14.08.18	Finds any suspicious non-alphabetism
ReferencesCollator	11.07.18	Finds reference lists, and colours, collates and sorts them
VancouverAllCited	26.05.18	Creates a list of all cited Vancouver references
CommentBracketsToBubbles	26.05.18	Copies text in square brackets and into comment bubbles
BordersAllOff	26.05.18	Removes border attributes from some or all text
BordersAddToText	26.05.18	Changes underlined+highlighted text to coloured borders

CatchPhrase	18.05.18	Searches for repeated phrases/sentences
TweetCheck	10.05.18	Highlights paragraphs with too many characters
ParaWordLengthHighlighter	08.05.18	Highlights all paragraphs of a range of word lengths
ProperToPronoun	02.05.18	Changes the next proper noun to a personal pronoun
StyleFollowingHeadings	13.04.18	Sets the style of the paragraph after each heading
DoubleSpaceAfterSentence	28.02.18	Ensures that every sentence has TWO spaces after it
InsertTableRefs	21.02.18	Adds hyperlinked references to all tables
InsertFigureRefs	21.02.18	Adds hyperlinked reference to all figures
WordsPhrasesInContext	19.02.18	Copies paragraphs containing specific names into a new file
InsertHeadingRef	18.02.18	Adds a hyperlinked reference to a heading
SmallCapsToProperNoun	11.02.18	Changes every small caps word into initial cap + lowercase
MacrosAllRestoreMac	03.02.18	Adds keybindings from a list of macro names
ShowFormattingMenu	01.02.18	Displays (or not) various formatting markers, and the highlighting
NoteRelocator	01.02.18	Takes footnotes out into the running text
ListSurnameSwap	29.01.18	Swaps forename first to surname first in selected text
CountWordsToCursor	29.01.18	Counts how many words in the paragraph up to the cursor
CommentContextCopier	20.01.18	Copies paragraphs containing comments into a new file
FReditCopyPlus	18.01.18	Copy word to make FRedit script item + highlight + case insensitive
FootnoteFiddleStartSpace	06.01.18	Removes initial space from each footnote
CopyHighlightedTextParagraphs	06.01.18	Copies paragraphs containing highlighted text into a new file
ColonUnbold	06.01.18	Romanises bold colons that are followed by roman text
CodeSegmentProtect	06.01.18	Applies strike-through to computer code sections
ClipboardLoader	06.01.18	Puts text in clipboard from a menu
MultiFileReferenceCollator	13.12.17	Collects all references (or foot/endnotes) from multiple files
MultiFilePDF	13.12.17	Save a folder full of files as PDFs
MultiFileCount	13.12.17	Count words in a group of files
MultiFileCopier	13.12.17	Save a duplicate set of files with a postfix
MultiFileComment	13.12.17	List all comments in a set of files
EndnoteAdd	30.11.17	Creates a new endnote (in a given style and/or sq. brackets)
SuperSubConvert	20.11.17	Changes weird super/subscript format to proper ones

CommentsPaneOLD	08.11.17	Open the comments pane
GreekHighlighter	05.11.17	Finds unicode Greek sections of text and highlights them
UnHighlightAndColour	04.11.17	Removes all highlight/coloration of the current colour
TagNI	04.11.17	Adds an <ni> tag after every heading
TableSpaceBeforeHeading	04.11.17	Adds a blank line where a numbered heading follows a table
SelectiveUnColourUnHighlight	04.11.17	Removes highlighting + removes coloration, but only on non-program text
QuoteMarkEmbedder	04.11.17	Changes double quotes inside double quotes to singles
PunctuationOffNearHere	03.11.17	Removes the punctuation near the cursor
FindRepeatedWords	03.11.17	Finds words that are repeated in a given range
AuthorsNotAllCaps	30.10.17	Changes author surnames to initial cap only
SortTextBlocks	28.10.17	Alpha sorts blocks of text by first line
SortOnTextAfterDelimiter	28.10.17	Sorts the selected list based on second 'field'
MaggyIt	28.10.17	Creates a Maggied Paul Beverley - Version of the current file
ArticleChanger	28.10.17	Types, deletes or switches article 'the'/'a'/'an'.
VisibleTrackOff4	27.10.17	Visible trackchange reminder - yellow background
AlphaOrderChecker	27.10.17	Creates an alpha-sorted Paul Beverley - Version of selected text showing changes
TagDQ	03.10.17	Add a tag to the current paragraph
ListLowercaseNoPunct	03.10.17	Lowercases the initial char + removes end punctuation
AcronymDefinitionLister	17.09.17	Creates a list of acronyms with definitions
ListHighlightedOrColoured	09.09.17	Lists alphabetically any text that is highlighted
ListHighlightedText	08.09.17	Lists alphabetically any text that is highlighted
FontFunniesClearThisOne	08.09.17	Makes the selected text into the default font
FontFind	08.09.17	Finds text in a given font name in selected text or whole file
HideShowText	07.09.17	Makes body text invisible
FunnyFontFind	07.09.17	Finds the next paragraph that has mixed fonts
FunnyFontClear	07.09.17	Makes all text in the selection the same font
FindInDeletedText	07.09.17	Searches only the deleted (track changed) text
ShapeShowHide	29.08.17	Makes all shapes distinguishable
FeatureCounter	24.08.17	Counts various feature of the current Word file
StrikeSingle	15.08.17	Adds or removes strike-through
FigTabBoxTagger	21.07.17	Add tags to captions of all Figures, Tables and Boxes

KeystrokesRestoreAll	20.07.17	Creates keybindings from a list
KeystrokesSaveAll	19.07.17	Creates a list of all user-defined keystrokes
KeystrokesMacroRestore	18.07.17	Applies keystrokes from a list of macros and keystrokes
TagVariousAttributes	13.07.17	Add red tags to all italic text
KeystrokesMacroSave	13.07.17	Creates a list of all macro keystrokes
TablesToTabText	27.06.17	Converts all tables into tab-separated text
HighlightAndColourSame	13.06.17	Highlights and/or colours all occurrences of this text
TagHighlighter	09.06.17	Highlights all of the ranges a paired tag, e.g. <em>, </em>
TagChecker	09.06.17	Checks the continuity of a paired tag, e.g. <em>, </em>
LigatureConverter	09.06.17	Replaces funny codes for fi/ff/fl/ffi in converted PDF
HighlightMultiAuthorCitations	09.06.17	Finds and highlights all the multi-author citations in the text
FullPointOnCaptions	09.06.17	Finds captions and ensures that they have a full point
FullPointOnBullets	09.06.17	Finds bullet items and ensures they have a full point
DeleteRestOfLine	09.06.17	Deletes from the beginning of current word to the end of the line
UnderlineOnlyItalic	08.06.17	Removes all underlining, then underlines all italic text
SpaceEquationsInPara	08.06.17	Adds spaces to MathType equation in this para if necessary
ItalicOffWord	18.05.17	Removes all italic and underline from selected text (or current word)
ShowFormatting	10.05.17	Display all formatting or just paragraph marks
FullFileNameCopy	09.05.17	Copy the full file name of the current file to the clipboard
VisibleTrackOff5	06.05.17	Visible trackchange reminder - selectable background colour
TextProbe	05.05.17	Find funny character codes
TypeSectionNumber	29.03.17	Adds a section number to the current heading
FindNextBigText	29.03.17	Searches down for a bigger than Normal font
DisplayedTextFormat	28.03.17	Removes quotes and romanises (and trims trailing spaces)
ItalicParaDelete	23.03.17	Deletes all paragraphs that are mainly in italic
VisibleTrackOff3	14.03.17	A visible trackchange reminder - using a wiggly line!
FootnoteReferenceExtract	11.03.17	Extracts references from footnotes, leaving Harvard citation
FindReplaceStay	09.03.17	Finds and replaces but don't move to next

StyleBodyIndent	20.01.17	Adds body style generally, plus No indent after headings
ReplicateThisEdit	07.01.17	Replicates the change just made, through the rest of the file
AutoCorrectItemsList	03.01.17	Lists all current autocorrect items
AutoCorrectItemsDeleteAdd	03.01.17	Optionally deletes all items, then adds new items
AuthorDateFormatter	03.01.17	Checks/corrects author/date formatting of reference list
TitleRemoveQuotesAndCaps	13.12.16	Removes quotes from current sentence, then makes it lowercase
HighlightOddPunctuationFormat	13.12.16	Highlights oddly formatted punctuation marks
DeleteAllImagesAndCloseUp	13.12.16	Deletes all images and closes the gaps
AddQuotesAndTitleCap	13.12.16	Puts quotes on sentence, then makes it title case
FReditSimple	10.12.16	Performs a list of F&Rs
CiteCheck	09.12.16	Checks reference citations
DeleteAllInlineImages	06.12.16	Delete all inline from a file
DeleteAllImagesAddCallout	06.12.16	Deletes all images from a file and leave a caption line.
ListAllColouredWords	02.12.16	Creates an alphabetic list of all words in the selected font colour.
SpacesInThousands	29.11.16	Changes four-figure numbers from comma to space.
AutoListOff	22.11.16	Changes auto-bulleted listing to real bullets
Romanise	24.10.16	Removes italic from the next set of italic characters.
ListItemNumberFormatter	24.10.16	Format the numbering of current list item
EquationsConvertAll	24.10.16	Converts all Equation Editor items to their text equivalent.
AlphabeticOrderChecker	22.10.16	Find any suspicious non-alphabetism
ReferenceDateShift	14.10.16	Move date from end of reference to after author(s)
TableCellsInitialCaps	01.09.16	Applies an initial capital to every cell in the selected range
StrikeAndColour	01.09.16	Adds strikethrough and colour
ListAllLinks	01.09.16	Creates a table of all URLs in the file
FormatRemoveNotURLs	01.09.16	Removes all styles and formatting except URLs
CloneWordFile	01.09.16	Create a clean new copy of a document
CloneWithEquations	01.09.16	Creates a clean copy of a file, including formatted equations
EquationsStrikeThroughAll	31.08.16	Ensure that no equations are edited by FRedit etc.
DoubleQuotesToSingle	31.08.16	Changes the curly quotes on a given phrase from double to single
DeleteAllFigures	31.08.16	Delete all images from a file that have a caption

ReferenceCheckWeb	30.08.16	Check each hyperlink and highlight accordingly
TagSelectedOrBold	02.05.16	Add red tags to the currently selected text or italic text
ItalicBoldTagger	02.05.16	Adds red tags to all italic and/or bold text
HighlightDuplicateSentences2	01.05.16	Highlight pairs of identical sentences
HighlightDuplicateSentences	01.05.16	Highlight pairs of identical sentences
SpellingListProcess	27.04.16	Tidy up a spelling FRedit list from cursor downwards
LetterIncrement	26.04.16	Find next alpha character and decrement it alphabetically
LetterDecrement	26.04.16	Find next alpha character and increment it alphabetically
CountRemainderSimple	25.04.16	Count words below the cursor
ComboBoxAccept	14.04.16	Find combo boxes and replace with the currently selected text
TagSelectedOrItalic	13.04.16	Add red tags to the selected text or italic text
UndoSpecificTrack	06.04.16	Find specific text and undo the track changes on it
ItaliciseOneVariable	06.04.16	Run along to find the next single alpha char and italicise it
SinglePrime	19.02.16	Adds single prime
NotesUnembed	19.02.16	Unembeds footnotes or endnotes
DoublePrime	19.02.16	Adds double prime
CountWordsInHighlightColour	10.02.16	Count the number of words in a given highlight colour
EnclosureFixer	09.02.16	Checks and corrects the order of enclosures - brackets etc.
DuplicatedWordsHighlight	03.02.16	Add a highlight to any duplicate words in a text, e.g. "the the"
DuplicatedWordsFind3	03.02.16	Find next consecutive three-word duplicate
DuplicatedWordsFind2	03.02.16	Finds next consecutive two-word duplicate
DuplicatedWordsFind	03.02.16	Find next consecutive duplicate word (idea from Douglas Vipond)
HyphenationToStylesheet	27.01.16	Create a word list from a HyphenAlyse file
FReditSwap	20.01.16	Swaps the two sides of a FRedit item
FReditCopy	20.01.16	Copy word to make FRedit script item
BookmarkToCursorSelect	12.01.16	Select from temporary marker to cursor
BookmarkTempClear	12.01.16	Delete temporary markers
BookmarkTempAdd	12.01.16	Add temporary marker
UnitSpacer	07.12.15	Find units with numbers and add a thin space
AbbrSwap	24.11.15	Swap abbreviation into or out of brackets
TitleUnCapper	27.10.15	Uppercase initial letter only on first word
BoxTextIntoBody	08.10.15	Copy text out of textboxes, then delete the boxes
SuperscriptHighlightSmart	25.09.15	Highlight all superscript numbers according to type
ContentsListByNumber	25.09.15	Create a contents list from numbered

		headings
SurnamesAllCaps	18.09.15	Capitalise all the surnames in a refs list
InitialCapWord	18.09.15	Initial capitalises the word at the cursor
FileChopper	29.08.15	Chops text into a number of smaller file using page breaks
FullPointMissing	06.08.15	Add a full point to the next line that doesn't have one
TrackChangeShowHide	16.07.15	Set up track changes to taste
TrackChangeOptions	16.07.15	Set up track changes to taste
ColumnTotal	12.05.15	Check the column total
ZeroIndentFirstLine	29.03.15	Zero indent on paragraph after heading
NameToInitial	02.03.15	Change given name to initial, then jump on to next
CommentTextNormalise	21.01.15	Get rid of "funny effects" in the comment boxes
RibbonMinMax	18.12.14	Toggle between maximize and minimize of the ribbon
ListLowercaseSemicolon	17.12.14	Add semicolons to bulleted list + lowercase initial char
TimecodeEditor	22.10.14	Increments/decrements timecode in a file
SwapNames	06.10.14	Swap adjacent names
AuthorNameSwap	01.10.14	Changes author surname and initials/given name
ListItemFinder	28.08.14	Jump to an auto-list number
ListCheckStart	28.08.14	Jump to an auto-list number
GreekPicker	20.06.14	Call up the Insert Symbol window set to Greek characters
GivenNameToInitials	27.03.14	Reduce given names to initial only
FindThisOrThat	24.02.14	Find the next occurrence of certain specific words
FindThisOrThatSetUp	22.02.14	Set-up for finding the next occurrence of certain specific words
HeadingLister	11.01.14	Create a list of all coded headings
PDFunderlineToLigature	04.01.14	Restore underline characters into ligatures
PDFsoftHyphenRemove	04.01.14	Unhyphenate split words
AcronymToSmallCaps	31.12.13	Converts all acronyms to small caps
ToCupdate	16.12.13	Update (and customise) the table of contents
CompareTextsOLD	07.12.13	Select non-identical text (was called IdenticalTextCheck)
CommentPickerInserter	14.11.13	Copy a comment from a list and paste into text
SymbolToUnicode	11.11.13	Converts Symbol font characters to Unicode characters
CommentPicker	09.11.13	Copy a comment out of a list of comments
EmailFormatter	05.11.13	Formats paragraphs in an email
SymbolShowNumber	28.10.13	Types out the 'unicode' of the symbol font character
TypeThinSpace	25.10.13	Types and highlights a thin space
ChangePrevious	23.10.13	Finds next change (not! comment)

ApplyAttribute	19.10.13	Apply attribute to current cell, row, column, paragraph, sentence, word or selection
CommentAdd2	01.06.13	Adds a comment
ShortTitleLister	19.05.13	Create a list of the named references in the notes
PDFhardHyphenRestore	18.04.13	Hyphenate falsely concatenated words
PDFfunniesToLigatures	18.04.13	Restore ligatures that have been converted to odd characters
HighlightAllOff	02.04.13	Remove all highlighting, including in boxes
FigCallouts	12.03.13	Figure callout inserter
TableEmDasher	05.03.13	Empty cells and hyphen/en dash to em dash
PerCent	25.02.13	Changes percent symbol to words
SpaceBeforeSelector	18.02.13	Increase and decrease space before paragraph
SpaceAfterSelector	18.02.13	Increase and decrease space after paragraph
IndentRightSelector	18.02.13	Set left indent settings to specific values
IndentLeftSelector	18.02.13	Set left indent settings to specific values
IndentFirstSelector	18.02.13	Set left indent settings to specific values
FontEliminate	16.02.13	Restore anything in this font to the default font
GermanQuotes	14.02.13	Switch UK quotes to German quotes
FrenchQuotes	14.02.13	Switch UK quotes to French quotes
AutoCurlyQuotesON	14.02.13	Switch on auto curly quotes
AutoCurlyQuotesOFF	14.02.13	Switch off auto curly quotes
IndentsSet	01.02.13	Set indent settings
IndentsMeasure	01.02.13	Measure and display current indent settings
TagList	19.01.13	Add tags to a numbered or bulleted list
FindNextNumber	09.01.13	Jump from one number to the next - section, fig, table, etc
FindPreviousNumber	08.01.13	Jump back to the previous number
FindSamePageLine	17.12.12	Find the same place in another file by page and line
MatchDoubleQuotes	07.12.12	Check whether double quotes match up
CodeFirstLines	05.12.12	Prepares the file by adding codes, etc.
DeleteSomeLinks	31.10.12	Delete hyperlinks that are not URLs
DeleteAllLinks	30.10.12	Delete all hyperlinks
BasicIndexer2	22.10.12	Also does basic indexing
PunctuationSwitcher	04.10.12	Changes order of next two punctuation marks
SortNumberedList	03.07.12	Sort references, ignoring the number at the beginning
CiteFileLink2	25.06.12	Link text and references files for CiteCheck
ListBulleter	09.06.12	Add a bullet to every paragraph in a list
AddWordToStyleList	26.05.12	Adds the selected text to the style list file
NoteJumper	21.05.12	Jump back and forth between notes and main text
LongSentenceHighlighter	19.05.12	Highlight all sentences more than a certain length
PDFpager	14.05.12	Highlights page numbers of text from a PDF

ShowStyles	06.05.12	Show style names as <A>-type codes in the text
TagBulletLists	30.04.12	Add tags to all bullet lists
CiteFileLink	18.04.12	Link text and references files for CiteCheck
DeleteAllComments	21.02.12	Delete all comments
TooDifficultWordHighlighter	15.02.12	Highlights any words not included in word list
PageNumberChecker	09.02.12	Check that the text page number = Word's page number
ContentsListChecker	09.02.12	Confirm the page numbers in the contents list
SampleFindAndDo	08.02.12	Find something specific and do things to each one
NumberSequenceCheckerHierarchical	06.02.12	Check the sequence of section numbers
FindColouredText	03.02.12	Finds coloured text
AutoListLcaseOne	30.01.12	Lowercase initial letter of one auto-bulleted/numbered list item
AutoListLcaseAll	30.01.12	Lowercase initial letter of all auto-bulleted/numbered list items
MultiChoiceTidierGlobal	26.01.12	Lower case first word and remove end spaces and punctuation
FReditCopyWholeWord	17.01.12	Create FRedit item for whole-word F&R
Yesterdate	09.01.12	Type yesterday's date into the text
AddCommentMarkersInText	30.12.11	Add comment initials and numbers to text
NotesUnembedBySections	28.12.11	Unembed endnotes that are numbered in sections
SpellcheckWordUSUK	19.12.11	Spellcheck single word in NOT the current language
AllCapsToInitialCap	14.12.11	Initial cap any words in all caps
SelectTheseWords	12.12.11	Extend selection to whole words
SpellcheckWordCurrent	10.12.11	Spellcheck single word in current language
LanguageHighlight	05.12.11	Highlight all text not in main language
InitialCapItalicText	03.12.11	Initial caps on significant words in italic text in notes
InitialCapItalicInNotes	03.12.11	Initial caps on significant words in italic text in notes
TrackChangeReject	23.11.11	Rejects the track changes on the current line
TrackChangeAccept	23.11.11	Accepts the track changes on the current line
CountCase	23.11.11	Count the numbers of upper and lowercase characters
ChangeNotTracked	03.11.11	Changes (or add) some text, but don't track the change
TagA	29.10.11	Adds a tag to the current paragraph
CiteFindName	21.10.11	Jump back from date to name
CellsAddChar	20.10.11	Check that there is a full point ending each cell
PunctAlyse	18.10.11	Produces usage statistics of various punctuation

FontHighlight	03.10.11	Highlight all fonts NOT named in the list
SelectHighlightedText	05.09.11	Selects all text in a given highlight
PictureShow	31.08.11	Switch pictures on and off
HideShowPictures	31.08.11	Switch pictures on and off (Was called PictureShow)
SpellcheckWordUS	25.08.11	Spellcheck single word US
SpellcheckWordUK	25.08.11	Spellcheck single word UK
SuperscriptNoteNumber	11.08.11	Superscript note number
ItalicKill	11.08.11	Removes italic from selected text or current line
HighlightLongQuotesSingle	11.08.11	Highlight all long quotes (single)
HighlightLongQuotesDouble	11.08.11	Highlight all long quotes (double)
BoldKill	11.08.11	Remove bold from selected text or current line
BorderParaOff	06.08.11	Remove the borders applied to the paragraph
EndNoteFiddleSuperscript	25.07.11	Makes changes to superscript on all endnotes
SuitToText	21.07.11	Convert playing card suit symbols to text
IndentChanger	07.07.11	Changes paras of one indent value to another
CodeIndentedParas	07.07.11	Add codes to indented paragraphs
FindAdvanced3	01.06.11	Call up Advanced Find dialog box
HighlightListerDeLuxe	27.05.11	List all the highlight colours used
HighlightLister	26.05.11	List all the highlight colours used
NumberParasAuto	21.05.11	Adds hierarchical section numbering
MarkFinalOnOff	14.05.11	Switch "Mark as final" facility on/off
SciMarkPicker	10.05.11	Call up the Insert Symbol window set to Greek characters
AccentPicker	10.05.11	Call up the Insert Symbol window set to accented characters
SpellcheckWarn	30.04.11	Run a spellcheck, but beep if not UK or languages are mixed
FandRapostrophe	22.04.11	F&R text that contains curly quotes/apostrophe
ReferenceNameFinder	08.04.11	Get date from reference and add after author citation
AcceptSpecificTrackChange	02.04.11	Accept all occurrences of one specific track change
FullNameType	31.03.11	Types out the full filename of the open file
FReditListRun	31.03.11	Load, run and close a specific FRedit list
CountHighlightColour	04.03.11	Count how many times a highlight colour occurs
HighlightIndentedParas	01.03.11	Highlight all indented paragraphs
TrackOnOffAudible	26.02.11	Track on/off with audio feedback
SpikePaste	26.02.11	Paste the whole contents of the spike
SpikeCut	26.02.11	Cut to spike
SpikeCopy	26.02.11	Copy to spike
InstantFindBottom	25.02.11	I couldn't possibly comment!

TrackingShowSwitcherExtreme	23.02.11	Toggle visibility of track changes
TrackingShowSwitcher	23.02.11	Toggle visibility of track changes
ClipToTextWithEmphasis	23.02.11	Get pure text from pdfs and websites
SortCaseSense	17.02.11	Sort into separate lists: Lcase/Ucase
SectionNumberChecker	16.02.11	Check the sequence of section numbers
ListSemicolon	15.02.11	Add semicolons to bulleted list
HighlightAllQuestions	15.02.11	Highlights all questions
AcronymFinder	11.02.11	Find a group of words for an acronym
LowercaseGlobal	10.02.11	Lowercase this phrase throughout text
SemicolonEndPara	09.02.11	Lowercase first character + add semicolon at end
AddSectionNumber	07.02.11	Add indexed section number
HeadingStyler	02.02.11	Styles all headings by depth of section number
BodyTexter	02.02.11	Apply 'Body Text' to every paragraph in 'Normal'
MultiChoiceTidierSingle	28.01.11	Lowercases initial char of answer + remove end spaces + punct
SelectCurrentPage	26.01.11	Select the current page
WordTotaller	21.01.11	Adds up word numbers in selected texts
CodeBoldParas	13.01.11	Tag/code every bold heading
UnHighlightExcept	11.01.11	Remove all highlights except one/two chosen colours
LongSentenceCheck	06.01.11	Colour long sentences
StylePaste	04.01.11	Paste style
StyleCopy	04.01.11	Copy style
PasteWithEmphasis	30.12.10	Paste with emphasis
FindStyle	30.12.10	Finds text in this style
BasicIndexer	27.12.10	Does basic indexing
IndexElide	23.12.10	Add elision to an index
PageHopper2	18.12.10	Go to page x
TableCallouts	14.12.10	Table callout inserter
PageHopper	08.12.10	Go to page x
Spellcheck	06.12.10	Run a spellcheck
CommaAddUSUK	28.11.10	Add a comma
SelectParagraph	24.11.10	Selects current paragraph
InstantFindTop	18.11.10	Find this from the top
FindStyleOld	17.11.10	Find text in this style
FindStyleOldUp	16.11.10	Find text in this style
ParaShort	06.11.10	Finds medium-length paragraphs
ListHighlighter	19.10.10	This highlights all 'short' paragraphs in a text
FootnoteNextUp	13.10.10	Jump to previous footnote
FootnoteNext	13.10.10	Jump to next footnote
NextNumberUp	11.10.10	Find previous section number
NextNumberPlusUp	11.10.10	Find previous section number
NextNumberPlus	11.10.10	Find next section number
NextNumber	11.10.10	Find next section number
InstantFindFormatUp	10.09.10	Find format similar to this

InstantFindFormatDown	10.09.10	Find format similar to this
CaseSecondNextWord	12.08.10	Changes case of next-but-one word
CaseNextPara	12.08.10	Changes case of initial letter of the paragraph
ItalicCount	22.07.10	Counts the number of words that are in italic
ToCback	18.07.10	Jump back to table of contents
DeleteAllBookmarks	18.06.10	Deletes all bookmarks
TextBoxFrameCut	01.06.10	Remove textboxes and frames
SetTextBoxStyle	01.06.10	Apply style to all textboxes
NoteDeleteDblSpace	01.06.10	Deletes double spaces from endnotes
JustifyOFF	01.06.10	Turn format off on all paragraphs
FunnyChange	01.06.10	Make various complicated changes to all paragraphs
FootnoteNumberNotItalic	01.06.10	Makes changes to all footnotes
FirstNotIndent	01.06.10	Full-out paragraph under all headings
CopyComments2	01.06.10	Create a list of all the comments
AutoListOffSimple	01.06.10	Auto-lists to text
InitialNext	29.05.10	Find run of caps
InitialCapOnly	29.05.10	Reduce all-capitals to initial cap
CentreText	07.05.10	Centres the text
ColourToggle	05.05.10	Red text on/off
SpecialCharList	28.02.10	Creates a list of the Unicode characters in the document
SymbolFontCheck	23.02.10	Greek symbol font checker
ShowFixedSpaces	09.02.10	Fixed spaces visible
CustomKeys	03.02.10	Open the Customize Keyboard dialogue box
DoNowt	01.02.10	Do nothing at all!
PasteUnformatted	30.01.10	Pastes unformatted
HiLightOffCurrentLine	22.01.10	Removes highlight (text colour) from selected text or current line
ListUcaseAll	07.01.10	Upper case initial letter of all list items
ListUcase	07.01.10	Upper case initial letter of list item
ClipToText	04.01.10	Get pure text from pdfs and websites
WikiToText	01.01.10	Convert from text to Wiki format
WikiToStyles	01.01.10	Convert from Wiki format to text
WikiSwitch	01.01.10	Convert text to and from Wiki format
VisibleTrackOff2	01.01.10	Visible reminder that track changes is off
VisibleTrackOff	01.01.10	Visible reminder that track changes is off
TrackOnOff	01.01.10	Toggle track changes on and off
ShowHideTracksOnly	01.01.10	Toggle showing just track changes on and off
ShowHideAllTracking	01.01.10	Toggle showing track changes and comments on and off
OvertypBeep2	01.01.10	Sound warning beep on overtyp + visual
OvertypBeep	01.01.10	Sound warning beep on overtyp
NonCurlyQuote	01.01.10	Add non-curly double quote
NonCurlyApostrophe	01.01.10	Add non-curly single quote
MacroIndent	01.01.10	Automatically indent a macro listing
HiLightTurquoise	01.01.10	Adds highlight in turquoise

HiLightON	01.01.10	Adds highlight in currently selected colour
HiLightOffALL	01.01.10	Removes ALL highlights (text colour) from whole text
HiLightOFF	01.01.10	Removes highlight (text colour) from selected text
Alphabetic order		
AAnAlyse	16.01.21	Checks a's and an's for agreement with the following word
AbbreviationAdd	15.06.22	Creates an abbreviation of roughly selected text (in parenthesis)
AbbrSwap	24.11.15	Swap abbreviation into or out of brackets
AbstractAndKeywordCount	09.04.21	Counts abstract word numbers and keyword items
AccentAlyse	24.10.24	Analyses all the words that contain an accent
AccentedWordCollector	03.02.20	Creates a list of all the accented words in a text
AccentPicker	10.05.11	Call up the Insert Symbol window set to accented characters
AcceptSpecificTrackChange	02.04.11	Accept all occurrences of one specific track change
AcceptTrackedFormatChanges	21.06.22	Accepts just the formatting track changes
AcceptTrackingSelectively	10.02.21	Accepts track changes of specific author/editor
AcronymAddThe	11.12.24	Adds 'the' in front of various acronyms or titles
AcronymAlyse	27.11.21	Lists all acronyms, with frequency
AcronymDefinitionLister	17.09.17	Creates a list of acronyms with definitions
AcronymFinder	11.02.11	Find a group of words for an acronym
AcronymLister	17.09.18	List all acronyms
AcronymsToSmallCaps	01.02.20	Finds all acronyms (in text or selection) and changes to small caps
AcronymToSmallCaps	31.12.13	Converts all acronyms to small caps
AddCommentMarkersInText	30.12.11	Add comment initials and numbers to text
AddKeys	08.07.20	Adds keybindings to macros
AddQuotesAndTitleCap	13.12.16	Puts quotes on sentence, then makes it title case
AddSectionNumber	07.02.11	Add indexed section number
AddTextRoundText	14.01.21	Adds text at either end of a word or phrase (can delete punctuation)
AddWordToStyleList	26.05.12	Adds the selected text to the style list file
AllCapsToInitialCap	14.12.11	Initial cap any words in all caps
AllCapsToItalic	08.08.22	Finds words in all caps and makes them italic
AllCapsToItalicNext	11.08.22	Finds next word in all caps and makes it italic
AllCapWordsCollect	15.09.23	Collects all the words in all caps style
AlphabeticOrderByLine	14.08.18	Finds any suspicious non-alphabetism
AlphabeticOrderChecker	22.10.16	Find any suspicious non-alphabetism

AlphaHeadersOnIndex	10.09.19	Adds alpha headers to an index
AlphaOrderChecker	27.10.17	Creates an alpha-sorted Paul Beverley - Version of selected text showing changes
Ampersand	03.06.22	Changes next ampersand to 'and'
AmpersandAdd	23.06.23	Adds an ampersand in front of the current name
AndToAmpersand	24.06.23	Changes the next citation from "and" to "&"
AndToAmpersandGlobal	24.06.23	Changes all citations from "and" to "&"
ApostropheAdd	08.12.22	Adds an apostrophe, highlighted
ApplyAttribute	19.10.13	Apply attribute to current cell, row, column, paragraph, sentence, word or selection
ArticleChanger	28.10.17	Types, deletes or switches article 'the'/'a'/'an'.
AsWellAsToAnd	24.09.22	Changes 'as well as' to 'and', and the comma, if necessary
AuthorCaseChange	16.01.21	Lowercases author surnames (e.g. SMITH, J. to Smith, J.) in references list
AuthorDateFormatter	03.01.17	Checks/corrects author/date formatting of reference list
AuthorForenamesInitialiser	20.12.23	Changes author forenames to initials
AuthorInitialCapitalReferences	16.01.21	Changes author surnames in all capitals to initial capital
AuthorNameReinsert	05.09.20	Replaces the dash-and-comma for the author's name
AuthorNameReinsertParens	05.09.20	Replaces the dash-and-comma for the author's name (parenthesis)
AuthorNameSwap	01.10.14	Changes author surname and initials/given name
AuthorsNotAllCaps	30.10.17	Changes author surnames to initial cap only
AuthorSurnameSwap	19.05.21	Moves author surname in a list to the beginning of the line
AutoCorrectItemsDeleteAdd	03.01.17	Optionally deletes all items, then adds new items
AutoCorrectItemsList	03.01.17	Lists all current autocorrect items
AutoCurlyQuotesOFF	14.02.13	Switch off auto curly quotes
AutoCurlyQuotesON	14.02.13	Switch on auto curly quotes
AutoListLcaseAll	30.01.12	Lowercase initial letter of all auto-bulleted/numbered list items
AutoListLcaseOne	30.01.12	Lowercase initial letter of one auto-bulleted/numbered list item
AutoListOff	22.11.16	Changes auto-bulleted listing to real bullets
AutoListOffSimple	01.06.10	Auto-lists to text
AutoTagger	30.09.19	Tag/code automatically
AynHamzaFormat	28.03.24	Corrects formatting of ayns and hamzas
BackgroundColourAllOff	11.04.20	Removes all background colours
BackgroundColourOff	11.04.20	Removes background colour
BackgroundColourOnOff	25.08.20	Switches background colour on/off
BackgroundPatternStyleChecker	26.01.23	Searches for text style with background pattern applied

BasicIndexer	27.12.10	Does basic indexing
BasicIndexer2	22.10.12	Also does basic indexing
BibleGatewayFetch	12.04.23	Launches Bible references on BibleGateway
BibleHubFetch	20.07.22	Launches selected text on BibleHub
BibSortWithDittos	07.07.20	Sorts bibliographic list including ditto marks
BinomialAdder	04.04.22	Adds Latin binomials into a document
BLcatalogueFetch	21.11.20	Launches selected text on Google
BodyTexter	02.02.11	Apply 'Body Text' to every paragraph in 'Normal'
BoldFirstOccurrence	13.09.19	Emboldens the first occurrence of words in a list
Boldiser	03.05.22	Toggles bold for next character or selected text
BoldItalicEtcToStyle	18.02.24	Changes bold, italic, etc to character styles
BoldItalicToStyle	21.09.24	Changes bold, italic and bold-italic applied directly, into character styles
BoldKill	11.08.11	Remove bold from selected text or current line
BoldQuickSwitch	01.07.24	Adds/removes bold to/from selected text
BoldThisWord	11.08.22	Makes the word at the cursor bold
BookmarkTempAdd	12.01.16	Add temporary marker
BookmarkTempClear	12.01.16	Delete temporary markers
BookmarkTempFind	29.04.20	Go to temporary marker
BookmarkToCursorSelect	12.01.16	Select from temporary marker to cursor
BorderParaOff	06.08.11	Remove the borders applied to the paragraph
BordersAddParagraphs	08.03.23	Adds colour borders to (partly) selected paragraphs
BordersAddToText	26.05.18	Changes underlined+highlighted text to coloured borders
BordersAllOff	26.05.18	Removes border attributes from some or all text
BordersNext	10.10.19	Finds next paragraph with borders
BordersPrevious	10.10.19	Finds previous paragraph with borders
BoxTextIntoBody	08.10.15	Copy text out of textboxes, then delete the boxes
CalloutTextboxAdd	17.10.24	Adds a call-out box of the selected text
CambridgeDictionaryFetch	24.10.22	Launches selected text on Cambridge Dictionary
CapitaliseUndoubler	13.09.19	Finds doubled capital letters and corrects them
CapitAlyse	21.06.24	Analyses capitalised words
CapperMax	13.11.23	Uppercases initial letter of all major words (title case)
CapperMin	12.11.22	Lowercases initial letter of capitalised words (sentence case)
CaptionsListAll	25.05.23	Lists all paragraphs with bold Figure, Table, Box
CaseNextChar	13.05.24	Changes case of the next character/selection

CaseNextPara	12.08.10	Changes case of initial letter of the paragraph
CaseNextWord	16.04.24	Changes case of initial letter of next word or selection
CaseSecondNextWord	12.08.10	Changes case of next-but-one word
CaseThisWord	23.05.24	Changes initial case of current word and jumps to next word
CatchPhrase	18.05.18	Searches for repeated phrases/sentences
CellsAddChar	20.10.11	Check that there is a full point ending each cell
CentreText	07.05.10	Centres the text
CenturyAlyse	25.11.20	Analyses how centuries are formatted in a document
ChangeNext	29.08.20	Finds next change (but not comment)
ChangeNotTracked	03.11.11	Changes (or add) some text, but don't track the change
ChangePrevious	23.10.13	Finds next change (not! comment)
ChapterChopper	20.10.23	Chops a chapter into separate files
ChapterFileLinker	16.11.23	Rejoins all the chapters of a book
ChapterStartBreak	05.03.23	Finds all chapter titles, adds page break and removes multi-newlines
CharacterSwitch	06.02.21	Scripted character switching
CharToAcute	01.02.21	Adds an acute accent to the next vowel
CharToCircumflex	01.02.21	Adds a circumflex to the next vowel
CharToGrave	01.02.21	Adds a grave acute accent to the next vowel
CharToMacron	13.09.19	Adds a macron accent to the next vowel
CharToUmlaut	01.02.21	Adds various accents
CharToVariousAccents	01.02.21	Adds various accents
CheckCapSentences	18.06.21	Forces an initial capital on every sentence
ChicagoNoteReferenceAlyse	31.12.21	Helps to check note-based reference citations
Chirimbolos	04.08.20	Chirimbolos - WhatChar in SPANISH by Marcela Ronaina
ChronologyChecker	15.04.22	Copies paragraphs containing date references into a new file
CitationAlyse	26.09.24	Checks citations against references
CitationAlyseAlpha	28.10.24	Checks citations against references
CitationListSortByName	10.04.24	Sorts items in a citation list in the text by name.
CitationListSortByYear	16.01.21	Sorts items in a citation list in the text by date.
CiteCheck	09.12.16	Checks reference citations
CiteFileLink	18.04.12	Link text and references files for CiteCheck
CiteFileLink2	25.06.12	Link text and references files for CiteCheck
CiteFindName	21.10.11	Jump back from date to name
CleanUp	10.06.20	Cleans up a file by F&R
ClearHighlightAndColour	28.01.22	Removes all highlighting, coloration and (optionally) underlining
ClipboardLoader	06.01.18	Puts text in clipboard from a menu

ClipboardSave	15.06.24	Saves contents of clipboard as a new file in your temp folder
ClipCopy	06.02.21	Copies the selected text into a ClipStore file
ClipPaste	15.04.20	Collects and pastes an item from a clip list
ClipPaste_1	20.03.20	Collects and pastes a numbered item from a clip list
ClipPasteTextOnly	15.04.20	Collects and pastes an item from a clip list
ClipStore	20.03.20	Copies the selected text into a clip list
ClipToText	04.01.10	Get pure text from pdfs and websites
ClipToTextWithEmphasis	23.02.11	Get pure text from pdfs and websites
CloneWithEquations	01.09.16	Creates a clean copy of a file, including formatted equations
CloneWordFile	01.09.16	Create a clean new copy of a document
CMOSFetch	28.08.22	Launches selected text to CMS website
CMOSFetchAlt	28.08.22	Launches selected text to CMS website.
CodeBoldParas	13.01.11	Tag/code every bold heading
CodeFirstLines	05.12.12	Prepares the file by adding codes, etc.
CodeIndentedParas	07.07.11	Add codes to indented paragraphs
CodeSegmentProtect	06.01.18	Applies strike-through to computer code sections
CollinsFetch	25.09.24	Launches selected text on Google
Colon	09.11.24	Makes adjacent words into colon separated
ColonLowercaseAll	17.02.23	Changes the initial letter after every colon to lowercase
ColonUnbold	06.01.18	Romanises bold colons that are followed by roman text
ColonUppercaseAll	23.07.22	Changes the initial letter after every colon to lowercase
ColourMinus	16.03.21	Removes or adds font colour in a choice of colours
ColourPlus	15.01.24	Adds font colour in a choice of colours
ColourPlusAttribute	06.06.23	Applies font/highlight colour plus an attribute
ColourToggle	05.05.10	Red text on/off
ColumnTotal	12.05.15	Check the column total
ComboBoxAccept	14.04.16	Find combo boxes and replace with the currently selected text
Comma	09.11.24	Make adjacent words into comma separated
CommaAdd	13.05.24	Adds a comma after the current word
CommaAddPrevious	19.09.18	Adds a comma before the current word
CommaAddUSUK	28.11.10	Add a comma
CommaInDialogue	17.02.21	Give adjacent words a comma link
CommentAdd	26.02.24	Adds a comment
CommentAdd2	01.06.13	Adds a comment
CommentAddAndPasteSelected	26.02.24	Copies text, adds a comment and pastes text
CommentAdder	23.08.22	Adds a comment off a menu
CommentAddFromFile	04.07.24	Adds a comment from a file of ready-made comments
CommentAddJumpBack	26.02.24	Creates a comment or jumps back to the text

CommentAddMenu	26.02.24	Adds a comment off a menu
CommentAddSimple	26.02.24	Adds a new comment with a standard text item added
CommentAddToTrackedChanges	06.04.23	Adds a blank comment to every tracked change in the selected text
CommentBracketsToBubbles	26.05.18	Copies text in square brackets and into comment bubbles
CommentBubblesToBrackets	10.08.24	Copies comments into brackets in running text
CommentChangeScope	04.03.20	Reduces or extends the scope of a comment
CommentCollector	30.09.24	Creates a table of all comments
CommentCollectTabulated	15.01.24	Collects comments into a table
CommentCompose	26.02.24	Allows you to create a new (modern) comment
CommentComposeMenu	26.02.24	Adds a comment off a menu
CommentContextCopier	20.01.18	Copies paragraphs containing comments into a new file
CommentCopier	15.01.24	Creates an author query list
CommentDeleteMoveNext	17.05.22	Deletes current comment and moves to the next comment
CommentGoTo	19.08.24	Moves to a specific numbered comment
CommentInitialFandR	14.08.19	Finds and replaces comment initials
CommentInitialReplaceAll	14.08.19	Changes all comment initials
CommentJumpInOut	13.06.22	Jumps in and out of comment text
CommentJumpToText	22.06.22	Moves the cursor from the comment back into the text
CommentListNumbered	16.01.21	List all comments in file with index numbers
CommentNameChanger	26.02.24	Changes the name attached to comments
CommentNameChangerWithReplies	19.08.24	Changes the name attached to comments
CommentNext	13.11.21	Goes to next comment
CommentNumbering	20.05.19	Add or remove fixed comment numbers
CommentPicker	09.11.13	Copy a comment out of a list of comments
CommentPickerInsert	14.11.13	Copy a comment from a list and paste into text
CommentPrevious	14.11.21	Goes to previous comment
CommentsAddIndexOnInitials	17.10.19	Adds (and removes) serial numbers to initials in comments
CommentsCollectTabulated	21.12.23	Collects comments into a table
CommentsDeleteAllNotTagged	17.10.19	Deletes all comments *not* starting with a specific tag
CommentsDeleteSelectively	13.05.20	Deletes all comments that have a specific tag
CommentsModernCollect	02.08.21	Extracts modern comments with format and colouring
CommentsModernDelete	02.08.21	Deletes current comment or all comments
CommentsPane	11.05.21	Opens and closes the Comments pane
CommentsPaneOLD	08.11.17	Open the comments pane
CommentsResolveSelected	19.09.23	Resolves all the comments in the selected

		area of text
CommentSuggestText	26.02.24	Copies selected text to make a comment
CommentTableMaker	09.05.24	Creates a table of all comments
CommentTextNormalise	21.01.15	Get rid of "funny effects" in the comment boxes
CommonCode	16.11.22	Not a macro - just useful computer code
CompareNow	26.10.21	Creates an instant comparison of two open Word files
CompareTexts	14.11.19	Compares copied text (i.e. clipboard contents) with selected text
CompareTextsOLD	07.12.13	Select non-identical text (was called IdenticalTextCheck)
CompareTwoLists	19.12.24	Compares two lists, and highlights and lists the items unique to each
ConcordanceMaker	17.04.20	Creates a concordance list
Confusables	17.06.22	Highlights/colours list of words in confusables file
ConsolidateTracking	24.09.22	Turns split tracking into a single change
ConsolidateTrackingAll	17.09.22	Consolidates tracking on all words within selection or all text
ContentControlsRemove	14.04.21	Moves the partly selected words one word right
ContentsListChecker	09.02.12	Confirm the page numbers in the contents list
ContentsListerByNumber	25.09.15	Create a contents list from numbered headings
ContentsListerByStyle	23.06.23	Create a contents list from numbered heading style
ContentsListerByTag	17.09.18	Creates a contents list from tags, <A>, <B>, etc.
CopyAllComments	17.03.24	Copies all the comments into a new document
CopyAllComments	17.03.24	Copies all the comments into a new document
CopyAllEditedSentences	20.04.21	Copies all sentences that have tracked edits in them
CopyComments2	01.06.10	Create a list of all the comments
CopyCommentsAndSave	10.04.24	Create a list of all the comments
CopyFullFilename	29.06.22	Loads full filename of current document into clipboard
CopyHighlightedTextParagraphs	06.01.18	Copies paragraphs containing highlighted text into a new file
CopyHighlightedTextSentences	09.06.20	Copies sentences containing highlighted text into a new file
CopySelectedForCompare	23.10.21	Copies the selected text to a specified file
CopyTextSimple	13.06.24	Creates a text-only copy, with some features preserved
CopyTextVerySimple	28.10.20	Creates a text-only copy, with no features preserved

CopyToList	01.09.23	Copies selected text into a list file
CopyToListAlphabetic	08.12.24	Copies selected text into an alphabetic list file
CopyToListAlphaMenu	08.12.24	Copies selected text into various alphabetic lists
CopyToSwitchList	04.12.23	Copies selected text into a switch list file for MultiSwitch
CorrectDialogueEndGlobal	29.11.23	Correct punctuation & capitalisation at dialogue end
CountCase	23.11.11	Count the numbers of upper and lowercase characters
CountChapterPages	03.04.21	Counts words in sections of text between headings
CountDownVisible	03.04.20	Shows a statusbar and Big Text countdown to zero
CountHighlightColour	04.03.11	Count how many times a highlight colour occurs
CountPhrase	18.07.22	Counts this word or phrase
CountReferenceDates	06.10.24	Counts numbers of references older or newer than five years
CountRemainder	27.06.23	Counts words below the cursor
CountRemainderSimple	25.04.16	Count words below the cursor
CountSectionWords	03.04.21	Counts words in sections of text between headings
CountWordsInHighlightColour	10.02.16	Count the number of words in a given highlight colour
CountWordsToCursor	29.01.18	Counts how many words in the paragraph up to the cursor
CurlyQuotesToggle	18.02.20	Switches on auto curly quotes on and off
CustomKeys	03.02.10	Open the Customize Keyboard dialogue box
Dash	09.11.24	Makes adjacent words into sentence end
DateFormatAlyse	29.08.24	Counts the occurrences of different date formats
DayDateAlyse	10.04.22	Lists words out of a proper noun frequency list
DeleteAllBookmarks	18.06.10	Deletes all bookmarks
DeleteAllComments	21.02.12	Delete all comments
DeleteAllEndnotes	19.09.18	Delete all endnotes
DeleteAllFigures	31.08.16	Delete all images from a file that have a caption
DeleteAllFootnotes	19.09.18	Delete all footnotes
DeleteAllImagesAddCallout	06.12.16	Deletes all images from a file and leave a caption line.
DeleteAllImagesAndCloseUp	13.12.16	Deletes all images and closes the gaps
DeleteAllInlineImages	06.12.16	Delete all inline from a file
DeleteAllLinks	30.10.12	Delete all hyperlinks
DeleteAllSpellingErrors	08.05.19	Deletes all spelling errors
DeleteBackToSentenceStart	23.04.21	Selects from current word to end of sentence
DeleteCommentsSelectively	10.02.21	Accepts track changes of specific

		author/editor
DeleteOneWord	26.05.23	Deletes current word, but no punctuation (was called DeleteWord)
DeleteRestOfLine	09.06.17	Deletes from the beginning of current word to the end of the line
DeleteRestOfSentence	14.01.21	Deletes from end of current word to the end of the sentence
DeleteRestOfSentence2	22.10.24	Deletes to the end of the sentence, including the current word
DeleteSentenceAfterQuote	25.09.18	Deletes rest of sentence after current quote
DeleteSomeLinks	31.10.12	Delete hyperlinks that are not URLs
DeleteToNextPunctuation	20.07.22	Deletes from end of current word to the next punctuation mark
DeSexer	18.01.20	Finds one of your words, then calls MultiSwitch to change it
DialoguePunctuationSwitch	12.09.19	Switches adjacent word link between comma and full point
DictaFRedit	06.02.21	Adds features to Word 365 Dictate, and cleans up it errors
DictionaryFetch	08.08.20	Launches selected text to dictionary.com
DictionaryFetchByLanguage	21.03.22	Checks the current word in a language-related dictionary
DictionaryFetchDE	08.08.20	Launches selected text to dudn.de
DictionaryFetchNL	08.08.20	Launches selected text to <a href="https://www.vandale.nl">https://www.vandale.nl</a>
DictionaryMultipleFetch	17.06.21	Launches selected text to dictionary.com and other dictionaries
DisplayedQuotesShortHighlight	17.07.23	Highlights all displayed quotes that are too short
DisplayedQuoteToInline	17.07.23	Turns a displayed quote to an inline quote
DisplayedTextFormat	28.03.17	Removes quotes and romanises (and trims trailing spaces)
DisplayQuote	14.12.23	Finds or displays a long quote
DIYColourLongSentences	24.11.20	Adds a highlight to sentences longer than 40 words
DIYColourLongWords	24.11.20	Adds a highlight to sentences longer than 40 words
DIYFormatHeadwords	24.11.20	Adds a character style to the first word of every para in a given style
DocAlyse	07.05.24	Analyses various aspects of a document
DocAlyseForMac	28.09.19	Analyses various aspects of a document
DocAlyseMedical	03.08.24	Analyses the use of various abbreviations in a medical document
DocAlyseUser	18.05.23	Create your own (multilingual?) document analyses
DocumentAddMyBlank	20.04.24	Adds document at specific window size, based on my template
DocumentCleaner	19.06.24	Removes styles and fonts but preserves bold, italic, highlights and font colours

DoNowt	01.02.10	Do nothing at all!
DoublePrime	19.02.16	Adds double prime
DoubleQuotesSingleTopical	20.07.23	Changes double quotes around current text to singles
DoubleQuotesToSingle	31.08.16	Changes the curly quotes on a given phrase from double to single
DoubleSpaceAfterSentence	28.02.18	Ensures that every sentence has TWO spaces after it
DPTMFetch	21.11.23	Launches selected text on DPTM - Busca el texto seleccionado en el Diccionario de términos médicos
DraftViewToggle	05.12.18	Switches between draft view and print view
DTMEfetch	10.05.22	Launches selected text on
DuplicatedWordsFind	03.02.16	Find next consecutive duplicate word (idea from Douglas Vipond)
DuplicatedWordsFind2	03.02.16	Finds next consecutive two-word duplicate
DuplicatedWordsFind3	03.02.16	Find next consecutive three-word duplicate
DuplicatedWordsHighlight	03.02.16	Add a highlight to any duplicate words in a text, e.g. "the the"
DuplicatePhrasesFind	10.08.24	Lists any sentences that are duplicated
DuplicateSentenceCount	21.05.21	Counts frequency of any duplicated sentences + highlights
DuplicateSentenceCountFast	17.12.24	Finds duplicate sentences and gives their frequency
DuplicateSentencesFind	22.11.24	Lists any sentences that are duplicated
DuplicatesRemove	26.01.24	Remove duplicate items from a list
EmailFormatter	05.11.13	Formats paragraphs in an email
EmailLinker	18.10.19	Finds all email addresses in the text and links them
EmDashUnspaced	14.06.21	Removes punctuation, adds unspaced em dash and lowercases next char
EnclosureFixer	09.02.16	Checks and corrects the order of enclosures - brackets etc.
EndnoteAdd	30.11.17	Creates a new endnote (in a given style and/or sq. brackets)
EndNoteFiddleSuperscript	25.07.11	Makes changes to superscript on all endnotes
Enigmatizer	25.10.19	Obfuscates/anonymises the current file
EquationsAllItalic	02.11.20	Makes all equations in the current selection italic
EquationsConvertAll	24.10.16	Converts all Equation Editor items to their text equivalent.
EquationsHighlightAll	10.10.20	Highlights all maths items
EquationSpacer	06.12.22	Adds spaces either side of equations that butt up to some text
EquationsStrikeThroughAll	31.08.16	Ensure that no equations are edited by FRedit etc.
EtAlCitationElision	04.10.23	Crops multi-author citation to single name + 'et al'

EtAlElision	24.08.20	Crops multi-authors to a given number before 'et al'
ExceptionsListEdit	27.05.20	Allows the user to edit, add to or replace the exceptions list
ExclamationMark	09.11.24	Make adjacent words into sentence end
FandRapostrrophe	22.04.11	F&R text that contains curly quotes/apostrophe
FandRdespiteTCsGlobal	19.09.18	Does current F&R despite track changes (global)
FandRdespiteTCsSelective	19.09.18	Does current F&R despite track changes (selective)
FeatureCounter	24.08.17	Counts various feature of the current Word file
FieldAlyse	06.09.19	Counts all fields of different types
FieldCodesVisible	24.10.23	Switches between fields being visible and not visible
FieldsUnlink	30.11.22	Unlinks all fields except equations
FigCallouts	12.03.13	Figure callout inserter
FigNoteCalloutSwap	13.11.24	Moves the note callout to after the figure citation
FigStrip	25.05.23	Strips out all figures and leave a callout
FigTabBoxTagger	21.07.17	Add tags to captions of all Figures, Tables and Boxes
FigTableBoxLister	09.07.20	Finds figure/table/box elements and their citations
FigureCaptionSplit	27.10.23	Splits a caption into two lines, the second in italic
FigureCaptionSplitAll	30.10.23	Splits all captions into two lines, the second in italic
FigureTableBoxRenumber	26.08.24	Renumbers figures, tables and boxes when some have been deleted
FileChopper	29.08.15	Chops text into a number of smaller file using page breaks
FileLister	19.09.18	Lists all files in a folder
FileOpener	08.08.20	Menu system to select and load a file(s)
FinalCharDelete	24.09.22	Removes the final character or punct off a word
FinalPhraseMoveForward	11.08.22	Cuts the final phrase of a sentence and pulls it to just after the cursor-word
FindAdvanced3	01.06.11	Call up Advanced Find dialog box
FindAndDo	08.08.22	Finds something specific and does things to each one
FindAndDoRng	08.08.22	Finds something specific and does things to each one
FindBack	16.06.23	Next find backwards
FindBackCase	16.06.21	Next case-sensitive find backwards
FindClip	12.01.21	Find whatever is in the clipboard
FindClipTop	12.01.21	Jumps to the top, and finds whatever is in the clipboard

FindColouredText	03.02.12	Finds coloured text
FindColouredTextUp	03.02.22	Finds coloured text upwards
FindFetch	08.08.22	Shell macro for making your own macro:
FindFwd	20.12.23	Finds next match forwards, case insensitively
FindFwdAll	27.06.20	Moves forward to next match: text > notes > comments
FindFwdCase	16.06.23	Next case-sensitive find forwards
FindHashAndStyleNext	19.01.23	Finds a hash and changes the style of the following paragraph
FindInContextLoad	04.10.18	Loads name and date ready for FindInContext macro
FindInDeletedText	07.09.17	Searches only the deleted (track changed) text
FindInProximity	12.02.22	Finds certain words within a given word range
FindMissingPageNumbers	28.09.23	Clears trailing spaces, then highlights refs without page numbers
FindNextBigText	29.03.17	Searches down for a bigger than Normal font
FindNextNumber	09.01.13	Jump from one number to the next - section, fig, table, etc
FindNumbersInQuotesSingle	14.12.24	Finds the next number (numeral) inside single quotes
FindPreviousNumber	08.01.13	Jump back to the previous number
FindRepeatedWords	03.11.17	Finds words that are repeated in a given range
FindReplaceGo	12.01.21	Finds, replaces and moves to the next match
FindReplaceStay	09.03.17	Finds and replaces but don't move to next
FindResetParameters	15.01.24	Does a dummy find to set all the parameters to default
FindSamePageLine	17.12.12	Find the same place in another file by page and line
FindSamePlace	19.12.24	Finds the same place in another open file
FindSamePlaceBack	19.12.24	Finds the same place in another open file
FindSpecialCharacters	08.08.24	Finds next group of special characters, e.g. Chinese/Arabic
FindStyle	30.12.10	Finds text in this style
FindStyleOld	17.11.10	Find text in this style
FindStyleOldUp	16.11.10	Find text in this style
FindThisOrThat	24.02.14	Find the next occurrence of certain specific words
FindThisOrThatSetUp	22.02.14	Set-up for finding the next occurrence of certain specific words
FindTwoWords	02.10.24	Finds two words within a paragraph
FindTwoWordsSwap	05.08.24	Finds two words in the opposite order within a paragraph
FirstLineIndentToTab	07.09.20	Changes all first-line indents to a tab
FirstNotIndent	01.06.10	Full-out paragraph under all headings

FixedFontBlack	13.05.20	Sets font to an 'almost' black font colour
FixedFontBlue	13.05.20	Sets font to an 'almost' blue font colour
FixedFontRed	13.05.20	Sets font to an 'almost' red font colour
FixedFontSwitch	25.09.24	Switches font colour red -> blue -> black ->
FontColourDocumentSplit	25.06.20	Splits a document into coloured and not coloured
FontColourReader	14.08.19	Reads style font colour + any applied colour
FontColourSame	18.06.21	Colours all occurrences of this text in this colour
FontEliminate	16.02.13	Restore anything in this font to the default font
FontFind	08.09.17	Finds text in a given font name in selected text or whole file
FontFunniesClearAll	22.07.22	Changes all text in this specific font into the default font
FontFunniesClearThisOne	08.09.17	Makes the selected text into the default font
FontHighlight	03.10.11	Highlight all fonts NOT named in the list
FontLister	07.04.21	Lists all font names in selected text or whole file
FontMixFind	16.05.21	Finds the next paragraph that has mixed fonts
FontMixHighlight	17.05.21	Highlights paragraphs with mixed fonts, showing odd fonts
FontNameAndSizeReader	21.11.18	Reads style font Name + any applied Name
FontNameSizeScanAndFix	13.03.23	Assesses and lists (& optionally fixes) the font sizes & names
FontNameSizeScanAndFix	13.03.23	Assesses and lists (& optionally fixes) the font sizes & names
FootnoteAdd	27.08.18	Creates a new footnote (in a given style and/or sq. brackets)
FootnoteAdd	27.08.18	Creates a new footnote (in a given style)
FootnoteEndnoteFiddle	11.08.24	Tidies up start/end of each footnote or endnote
FootnoteFiddleStartSpace	06.01.18	Removes initial space from each footnote
FootnoteNext	13.10.10	Jump to next footnote
FootnoteNextUp	13.10.10	Jump to previous footnote
FootnoteNumberNotItalic	01.06.10	Makes changes to all footnotes
FootnoteReferenceExtract	11.03.17	Extracts references from footnotes, leaving Harvard citation
FootnoteTidy	30.07.21	Checks each footnote
FormatAlyse	07.09.19	Highlights various formatting features
FormatHeadwords	22.11.20	Adds a character style to the first word of every para in a given style
FormatNumbers	02.03.24	Formats number at cursor or numbers within a selection
FormatRemoveNotURLs	01.09.16	Removes all styles and formatting except URLs
FormatText	15.10.21	Formats a word/selection of whole words
ForumTextFormat	21.11.21	Converts text from Word to Forum and vice

		versa
FourDigitFixer	10.05.24	Adds a delimiter to four-digit numbers, but not dates
FourDigitHundreds	04.10.22	Changes four-figure numbers to words
FRedit	07.12.23	Scripted find and replace
FReditCommentToggle	17.04.24	Adds or removes the vertical bar that turns FRedit items into comments
FReditCopy	20.01.16	Copy word to make FRedit script item
FReditCopyPlus	18.01.18	Copy word to make FRedit script item + highlight + case insensitive
FReditCopyWholeWord	17.01.12	Create FRedit item for whole-word F&R
FReditHeadingsOnly	30.01.21	Run FRedit, but only on similarly formatted text
FReditListChecker	18.02.21	Checks for possible anomalies in a FRedit list
FReditListCreate	20.09.18	Adds text to list items and applies formatting
FReditListMenu	06.02.21	Provides a menu to run different FRedit lists
FReditListMenuFixedFiles	23.01.24	Allows fixed filenames, for if FReditListMenu doesn't work for you
FReditListProcess	08.02.22	Tidies up a spelling FRedit list from cursor downwards
FReditListRun	31.03.11	Load, run and close a specific FRedit list
FReditListTidy	24.04.24	Tidies up a FRedit list
FReditSame	21.08.19	Create FRedit item with ^&
FReditSelect	21.10.20	Runs FRedit, but only on multiply selected text
FReditSimple	10.12.16	Performs a list of F&Rs
FReditSwap	20.01.16	Swaps the two sides of a FRedit item
FrenchQuotes	14.02.13	Switch UK quotes to French quotes
FrequencyParagraphLength	15.04.20	Creates a histogram of paragraph length
FrequencySentenceLength	15.04.20	Creates a histogram of sentence length
FrequencyWordLength	15.04.20	Creates a histogram of word lengths
FRgo	04.05.24	Finds, replaces and moves to the next match
FRselective	02.10.24	Sets up various Finds and F&Rs
FRskip	04.05.24	Finds next match forwards, case insensitively
FRstay	04.05.24	Finds and replaces but don't move to next
FullFileNameCopy	09.05.17	Copy the full file name of the current file to the clipboard
FullNameAlyse	24.02.21	Creates a frequency list of all full names
FullNameAlyseCaseCount	23.12.22	Counts each of a list of words/phrases
FullNameType	31.03.11	Types out the full filename of the open file
FullPoint	09.11.24	Makes adjacent words into sentence end
FullPointInDialogue	17.02.21	Make adjacent words into sentence end
FullPointMissing	06.08.15	Add a full point to the next line that doesn't have one
FullPointOnBullets	09.06.17	Finds bullet items and ensures they have a full point

FullPointOnCaptions	09.06.17	Finds captions and ensures that they have a full point
FunnyChange	01.06.10	Make various complicated changes to all paragraphs
FunnyDashToEnDash	06.08.21	Changes all funny dashes to proper en dash
FunnyFontClear	07.09.17	Makes all text in the selection the same font
FunnyFontFind	07.09.17	Finds the next paragraph that has mixed fonts
GenusSpeciesAlyse	18.04.24	Checks the abbreviation of genus/species names
GermanAccusative	18.06.21	Forces the accusative -en ending to the current word
GermanQuotes	14.02.13	Switch UK quotes to German quotes
GivenNameToInitials	27.03.14	Reduce given names to initial only
GoogleBooksFetch	20.07.22	Launches selected text on Google Books
GoogleFetch	29.05.24	Launches selected text on Google
GoogleFetchCA	18.11.21	Launches selected text on Google Canada
GoogleFetchCookie	25.01.23	Launches selected text to Google website with cookie prompt
GoogleFetchDE	18.10.21	Launches selected text on Google
GoogleFetchEgypt	30.08.23	Launches selected text on Google
GoogleFetchFinland	23.04.24	Launches selected text on Google
GoogleFetchIncognito	14.09.24	Launches selected text to Google Chrome but incognito
GoogleFetchIndia	18.11.21	Launches selected text on Google
GoogleFetchNL	08.08.20	Launches selected text on GoogleNL
GoogleFetchQuotes	18.11.21	Launches selected text - with quotes - on Google
GoogleFetchQuotesCA	18.11.21	Launches selected text - with quotes - on Google Canada
GoogleFetchQuotesDE	18.10.21	Launches selected text - with quotes - on Google
GoogleFetchQuotesEgypt	30.08.23	Launches selected text - with quotes - on Google
GoogleFetchQuotesNL	08.08.20	Launches selected text - with quotes - on GoogleNL
GoogleFetchQuotesUS	18.11.21	Launches selected text - with quotes - on Google.Com
GoogleFetchSpecificBrowser	24.07.24	Launches selected text to Google using a specified browser
GoogleFetchUS	18.11.21	Launches selected text on Google.Com
GoogleMapFetch	06.09.23	Launches selected text to Google Maps
GoogleScholarFetch	06.12.21	Launches selected text on Google Scholar
GoogleScholarFetchQuotes	24.08.24	Launches selected text - with quotes - on Google Scholar
GoogleSSFatch	12.01.21	Uses Google to search a single specific site
GoogleTranslate	11.07.21	Launches selected text to GoogleTranslate
GoToBottom	31.05.24	Moves the cursor to the bottom of the document (for Mac users)

GoToTop	31.05.24	Moves the cursor to the top of the document (for Mac users)
GreekHighlighter	05.11.17	Finds unicode Greek sections of text and highlights them
GreekPicker	20.06.14	Call up the Insert Symbol window set to Greek characters
GroeneBoekjeFetch	08.08.20	Launches selected text to <a href="https://woordenlijst.org">https://woordenlijst.org</a>
HardSpaceAfterSuperscriptNumbers	17.11.22	Switches space to hard space after all superscripted number
HashtagCamelizer	07.10.24	Finds the next # and camel-cases the tag following
HeadersFootersRemove	11.11.22	Removes all headers and footers in all sections
HeadingLister	11.01.14	Create a list of all coded headings
HeadingSentenceCase	18.02.20	Sentence cases this selection or paragraph (but not acronyms)
HeadingStyler	02.02.11	Styles all headings by depth of section number
HeadingStylesAutomatic	13.12.22	Automatically adds styles to headings
HideShowPictures	31.08.11	Switch pictures on and off (Was called PictureShow)
HideShowText	07.09.17	Makes body text invisible
HighlightAllItalic	07.05.23	Highlights all text in italic (including in notes)
HighlightAllOff	02.04.13	Remove all highlighting, including in boxes
HighlightAllQuestions	15.02.11	Highlights all questions
HighlightAllTrackedText	15.04.22	Highlights (and/or font colours) all tracked text
HighlightAndColourSame	13.06.17	Highlights and/or colours all occurrences of this text
HighlightBrightGreen	15.03.24	Highlights the selected text (or a word or a paragraph)
HighlightCertainCharacters	21.09.18	Highlights certain characters with attributes
HighlightComments	16.11.22	Highlights all comments that have specific prefixes
HighlightDuplicateSentences	01.05.16	Highlight pairs of identical sentences
HighlightDuplicateSentences2	01.05.16	Highlight pairs of identical sentences
HighlightFindDown	27.01.22	Selects the next piece of highlighted text
HighlightFindUp	27.01.22	Selects the previous piece of highlighted text
HighlightInContext	30.03.24	Highlights a word or phrase in its context in a sentence/paragraph
HighlightIndentedParas	01.03.11	Highlight all indented paragraphs
HighlightingRemoveAll	12.07.24	Remove all highlighting, including in notes, boxes & comments
HighlightLister	26.05.11	List all the highlight colours used
HighlightListerDeLuxe	27.05.11	List all the highlight colours used
HighlightLongQuotesDouble	11.08.11	Highlight all long quotes (double)

HighlightLongQuotesSingle	11.08.11	Highlight all long quotes (single)
HighlightMinus	22.02.24	Adds highlight in a choice of colours
HighlightMissingDialoguePunctuation	22.09.22	Highlights missing dialogue punctuation (from an idea by Katherine Kirk)
HighlightMultiAuthorCitations	09.06.17	Finds and highlights all the multi-author citations in the text
HighlightNonRomanPunctuation	05.11.24	Highlights non-roman punctuation
HighlightNotThisSize	03.10.18	Highlights all text NOT the same size as the current text
HighlightOddPunctuationFormat	13.12.16	Highlights oddly formatted punctuation marks
HighlightOddQuotations	25.05.20	Marks all quotes + displayed text
HighlightOffIncNotes	24.01.24	Removes all highlights and/or colour from text and notes
HighlightOffNext	15.04.23	Unhighlights the next area of highlighting
HighlightOffNextWord	15.04.23	Unhighlights the next word that has some highlighting
HighlightOffWord	16.01.21	Remove highlight from all occurrences of this word
HighlightOrColourRemove	10.08.24	Removes the current highlight or font colour from the whole text
HighlightPlus	22.02.24	Adds highlight in a choice of colours
HighlightRemovePerColour	03.04.24	Removes highlight of one colour from selection or whole text
HighlightSame	16.01.21	Highlight all occurrences of this text in this colour
HighlightSpecialCharacters	06.07.23	Highlights all special characters in a file
HighlightToStyles	03.08.21	Finds highlighted text and does things to each colour
HighlightTrackedTextAuthor	02.02.24	Highlights all tracked text by a specific author
HighlightWithTrackChange	03.04.19	Use allcaps, smallcaps, underline for tracking highlighting
HighlightWordList	19.12.24	Highlights (and/or colours) all the words/phrases given in a list
HighlightYellow	11.11.24	Highlights the selected text (or a word or a paragraph)
HiLightOFF	01.01.10	Removes highlight (text colour) from selected text
HiLightOffALL	01.01.10	Removes ALL highlights (text colour) from whole text
HiLightOffCurrentLine	22.01.10	Removes highlight (text colour) from selected text or current line
HiLightON	01.01.10	Adds highlight in currently selected colour
HiLightTurquoise	01.01.10	Adds highlight in turquoise
However	15.06.21	Starts a sentence with 'However', and removes the later "however"
HyphenAlyse	05.09.24	Creates a frequency list of all possible hyphenations

HyphenationToFredit	04.02.22	Creates Fredit items from HyphenAlyse or PropernounAlyse files
HyphenationToStylesheet	27.01.16	Create a word list from a HyphenAlyse file
HyphenSpaceWordCount	13.05.24	Counts hyphenated word forms
HyphenSpaceWordCount	30.03.23	Counts hyphenated word forms
IncludeBracketInSentence	11.08.23	Moves the full point to after the bracketed reference
IndentChanger	07.07.11	Changes paras of one indent value to another
IndentFirstSelector	18.02.13	Set left indent settings to specific values
IndentLeftSelector	18.02.13	Set left indent settings to specific values
IndentRightSelector	18.02.13	Set left indent settings to specific values
IndentsMeasure	01.02.13	Measure and display current indent settings
IndentsSet	01.02.13	Set indent settings
IndexChecker	16.01.21	Lists all pages on which this word(s) occur(s)
IndexElide	23.12.10	Add elision to an index
IndexListItems	01.02.24	Finds page numbers of all the words/phrases given in a list
IndexPageNumberSwap	21.11.23	Swaps the page number at the cursor with the next number, e.g. 3,6,4,8,10
IndexPageOrderChecker	21.11.23	Seeks paragraphs that have number list in wrong order
InitialCapAllCapsWords	03.06.21	Initial caps the all-caps words in a document
InitialCapAlyse	17.09.18	Highlight possible capitalisation inconsistency
InitialCapItalicInNotes	03.12.11	Initial caps on significant words in italic text in notes
InitialCapItalicText	03.12.11	Initial caps on significant words in italic text in notes
InitialCapOnly	29.05.10	Reduce all-capitals to initial cap
InitialCapWord	18.09.15	Initial capitalises the word at the cursor
InitialiseFornamesInList	10.02.20	Changes forenames within a list to initials
InitialNext	29.05.10	Find run of caps
InitialPullBack	03.02.24	Pulls author's trailing initial(s) (e.g. B. or C.D.) in front of surname
InitialSwapper	06.06.22	Swaps initials and surname (P.E. Beverley - > Beverley, P.E.)
InitialSwapperReverse	22.07.22	Swaps initials and surname (Beverley, P.E. - > P.E. Beverley)
InsertFigureRefs	21.02.18	Adds hyperlinked reference to all figures
InsertHeadingRef	18.02.18	Adds a hyperlinked reference to a heading
InsertTableRefs	21.02.18	Adds hyperlinked references to all tables
InstantFindBottom	25.02.11	I couldn't possibly comment!
InstantFindDown	14.03.24	Finds selected text downwards
InstantFindDownWild	23.02.23	Finds selected text downwards wildcards set
InstantFindFormatDown	10.09.10	Find format similar to this
InstantFindFormatUp	10.09.10	Find format similar to this
InstantFindTop	18.11.10	Find this from the top

InstantFindUp	07.01.22	Finds selected text upwards
InstantJumpDown	12.01.21	Find selected text downwards
InstantJumpUp	13.01.21	Find selected text upwards
IStoIZ	01.10.24	Corrects text to give -iz-, -yz- spellings
ItalicBinomial	25.10.21	Italicises binomials
ItalicBoldTagger	02.05.16	Adds red tags to all italic and/or bold text
ItalicCount	22.07.10	Counts the number of words that are in italic
ItalicHighlightNotQuotes	31.08.22	Finds italic text (but not in quotes) and highlights it
ItaliciseOneVariable	06.04.16	Run along to find the next single alpha char and italicise it
ItalicisePhrase	04.10.18	Selects text up to next punctuation mark and makes it italic
Italiciser	03.06.22	Toggles italic for next character or selected text
ItaliciseVariable	25.01.22	Runs along, finds sets of alpha chars and italicises them
ItalicKill	11.08.11	Removes italic from selected text or current line
ItalicOffWord	18.05.17	Removes all italic and underline from selected text (or current word)
ItalicParaDelete	23.03.17	Deletes all paragraphs that are mainly in italic
ItalicQuickSwitch	01.07.24	Adds/removes italic to/from selected text
ItalicQuoteToggle	13.07.20	Toggles between italic and single or double quote
ItalicSpeechToSingleQuotes	04.05.22	Finds italic text, Romanises it and adds single quotes
ItalicWordList	19.09.18	Creates a list of all words in italic
IZ_words	02.08.21	Exceptions for IZtoIS
IZIScount	06.02.21	Counts IS/IZ spellings
IZtoIS	01.10.24	Corrects text to give -is-, -ys- spellings
JoinTwoWords	29.05.21	Joins two words
JumpNextAppliedStyle	11.08.20	Jumps to the next applied style
JumpPage	31.07.24	Jumps to the head of the next page
JumpPageUp	31.07.24	Jumps to the head of the next page
JumpScroll	12.12.22	Scrolls current line to the top of the page
JustifyOFF	01.06.10	Turn format off on all paragraphs
KerningAdjustShortest	24.07.24	Kerns selected text or selects the shortest line in the paragraph
KeystrokeLister	12.12.24	Creates a list of custom key allocations
KeystrokesMacroRestore	18.07.17	Applies keystrokes from a list of macros and keystrokes
KeystrokesMacroSave	13.07.17	Creates a list of all macro keystrokes
KeystrokesRestoreAll	20.07.17	Creates keybindings from a list
KeystrokesSaveAll	19.07.17	Creates a list of all user-defined keystrokes
LanguageHighlight	05.12.11	Highlight all text not in main language
LanguageSetCanada	09.04.23	Sets language as Canadian English
LanguageSetMulti	07.06.23	Toggles between different language country

		settings
LanguageSetUK	09.04.23	Sets language as UK English
LanguageSetUS	09.04.23	Sets language as US English
LanguageSwitch	16.08.23	Switches the language between two or three alternates
LanguageToggle	01.11.21	Toggles the language setting of (part selected) text
LanguageUSUKswitch	22.04.24	Switches language between UK and US English
LawDictionaryFetch	13.09.20	Launches selected text to Dictionary.Law website
LetterDecrement	26.04.16	Find next alpha character and increment it alphabetically
LetterIncrement	26.04.16	Find next alpha character and decrement it alphabetically
LigatureConverter	09.06.17	Replaces funny codes for fi/ff/fl/ffi in converted PDF
LinesToParagraphs	16.08.19	Converts lots of individual lines of text into paragraphs
LinkAdd	25.01.24	Selects the current word(s) and adds a link from your input
LinkCopy	25.01.24	Copies the URL of the current link
LinkDelete	25.01.24	Deletes (unlinks) the current link
LinkProblemHighlight	19.07.23	Highlights links that don't go anywhere
LinkProblemHighlighter	19.07.23	Highlights links that don't go anywhere
LinksAllToEndnotes	18.05.23	Change each active URL link into an endnote
LinksToURLtextGlobal	17.05.24	Converts URL links from descriptive text to actual URL address
ListAllCitations	28.12.23	Alphabetically lists all fig/table/box/flowchart citations
ListAllColouredWords	02.12.16	Creates an alphabetic list of all words in the selected font colour.
ListAllHeadings	04.11.22	Creates a list of all headings by style name
ListAllLinks	01.09.16	Creates a table of all URLs in the file
ListAllStyles	22.04.24	Creates a list of all styles name
ListAlyse	11.11.20	Makes a list of all the 'list' items - then you can analyse them!
ListBulleter	09.06.12	Add a bullet to every paragraph in a list
ListCheckStart	28.08.14	Jump to an auto-list number
ListHighlightedOrColoured	09.09.17	Lists alphabetically any text that is highlighted
ListHighlightedText	08.09.17	Lists alphabetically any text that is highlighted
ListHighlighter	19.10.10	This highlights all 'short' paragraphs in a text
ListItemFinder	28.08.14	Jump to an auto-list number
ListItemNumberFormatter	24.10.16	Format the numbering of current list item
ListLowercaseNoPunct	03.10.17	Lowercases the initial char + removes end

		punctuation
ListLowercaseSemicolon	17.12.14	Add semicolons to bulleted list + lowercase initial char
ListOfFound	16.01.21	Lists all occurrences of selected text
ListofHeadings	06.12.18	Create a list of all headings
ListOfList	16.01.21	Lists all items in a list that contain a particular text
ListOfParas	16.01.21	Lists all paragraphs (formatted text) starting with certain text
ListOfTaggedHeadings	21.09.18	Lists all tagged headings, <A>, <B>, etc
ListOfTextParas	16.01.21	Lists all paragraphs (pure text) starting with certain text
ListRenumber	30.11.19	Makes all following numbered items in a list consecutive
ListSemicolon	15.02.11	Add semicolons to bulleted list
ListSurnameSwap	29.01.18	Swaps forename first to surname first in selected text
ListUcase	07.01.10	Upper case initial letter of list item
ListUcaseAll	07.01.10	Upper case initial letter of all list items
ListUppercaseNoPunct	29.02.20	Uppercases the initial character + removes end punctuation
LoadFilesInList	29.06.22	Loads a series of files in a Word file list
LoadTheseFiles	13.05.20	Loads all the files listed in a file list
LongParagraphCheck	25.03.20	Colour long sentences
LongParagraphHighlighter	25.03.20	Highlights all paragraphs more than a certain length
LongParagraphHighlighterChars	23.06.21	Highlights all paragraphs more than a certain length
LongQuoteNext	01.08.20	Jumps to the next long quotation
LongSentenceCheck	06.01.11	Colour long sentences
LongSentenceHighlighter	19.05.12	Highlight all sentences more than a certain length
LongWordHighlighter	09.08.23	Highlights all words more than a certain length
LowercaseGlobal	10.02.11	Lowercase this phrase throughout text
LtrRestore	29.03.24	Restores text direction to left-to-right
MacquarieFetch	08.08.20	Launches selected text to the Macquarie dictionary
MacquariePremiumLogin	30.11.24	Logs in to the Macquarie dictionary
Macro list – latest versions		
MacroFetch	21.08.21	Fetches the macro named in the clipboard or at the cursor
MacroFetchKeystrokeRead	20.11.21	Reads and restores a macro's keystroke while upgrading
MacroFetchKeystrokeReadMac	20.11.21	Reads and restores a macro's keystroke while upgrading
MacroFetchPlus	17.06.24	Fetches the macro named in the clipboard or at the cursor, and it loads the URL into the clipboard. If on a blank line, it uses the

		clipboard text as the name
MacroFetchUpdate	21.08.22	Updates an existing macro, preserving the keystroke
MacroIndent	01.01.10	Automatically indent a macro listing
MacroLauncher	12.05.22	Offers a list of macros to launch (was called "MacroMenu")
MacroLauncherForMac	04.07.20	Offers a list of macros to launch (was called "MacroMenuForMac")
MacroMenuForMac	04.07.20	Offers a list of macros to launch
MacroMenuSearch	09.10.24	Searches the Macro Menu (or The Book) for two (parts of) words
MacroMenuSearchUp	09.10.24	Searches the Macro Menu (or The Book) (upwards)
MacroNameShow	10.05.24	Displays the current macro name in a display file
MacroNameToLink	31.06.24	Makes URL for macro name in clipboard or at cursor and puts in clipboard
MacroRunNoTC	01.01.22	Runs an analysis on track-accepted text
MacrosAllBackup	18.11.19	Creates a list of all macro keystrokes
MacrosAllRestore	18.11.19	Adds keybindings from a list of macro names
MacrosAllRestoreMac	03.02.18	Adds keybindings from a list of macro names
MacroSelect	12.01.23	Selects the current macro text
MacroUpdater	16.01.21	Updates to the current macro text, preserving the keystroke
MacroVersionChecker	18.11.19	Checks Paul Beverley - Version dates of all your macros against MacroList
MaggyIt	28.10.17	Creates a Maggied Paul Beverley - Version of the current file
MakeOKwordsList	26.10.19	Makes a list of all words not highlighted
MarkFinalOnOff	14.05.11	Switch "Mark as final" facility on/off
MarkIt	25.10.23	Applies various attributes by (wildcard) F&R
MarkupDisplaySwitch	23.11.23	Cycles through track change display levels
MarkupModeSwitch	12.10.22	Switches between inline and in-balloon markup
MatchDoubleQuotes	07.12.12	Check whether double quotes match up
MatchParentheses	24.11.23	Check whether brackets match up
MatchSingleQuotes	18.03.21	Check whether single quotes match up
MatchSquareBrackets	13.04.24	Check whether brackets match up
MegAlyse	20.01.22	Launches a selected series of analysis macros
MendeleyPunctuationCorrection	13.09.19	Moves punctuation marks to before the note indicator
MenuItemMaker	13.04.20	Creates a histogram of paragraph length
MerriamCollegiateFetch	02.08.22	Launches selected text to Merriam-Webster collegiate website
MerriamFetch	03.04.24	Launches selected text to Merriam

MerriamLegalFetch	13.09.20	Launches selected text to Merriam-Webster legal website
MerriamMedicalFetch	13.09.20	Launches selected text to Merriam-Webster medical website
MerriamThesaurusFetch	13.09.20	Launches selected text to Merriam-Webster thesaurus website
MerriamUnabridgedFetch	13.09.20	Launches selected text to Merriam-Webster unabridged website
MidSentenceCapitalRemove	05.07.24	Finds initial caps within sentences and offers to lowercase
MiniFRedit	15.10.18	Adds attributes to certain words
MoveNextSentence	18.10.22	Moves the cursor to the start of the next sentence
MovePreviousSentence	12.07.23	Moves the cursor to the start of the next sentence
MoveToEnd	22.07.23	Moves the selected text to the end of the sentence
MoveToNextQuote	25.09.18	Moves cursor to the next quote pair
MoveToStart	06.02.23	Moves the selected text to the beginning of the sentence
MoveWordLeft	30.11.19	Moves current word one word to the right
MoveWordRight	30.11.19	Moves current word one word to the Right
MultiChoiceTidierGlobal	26.01.12	Lower case first word and remove end spaces and punctuation
MultiChoiceTidierSingle	28.01.11	Lowercases initial char of answer + remove end spaces + punct
MultiFileAcceptTrackChanges	21.10.21	Accept track changes in multiple files
MultiFileBackgroundColourChange	03.07.24	Changes the background colour of all files in a list
MultiFileComment	13.12.17	List all comments in a set of files
MultiFileCopier	13.12.17	Save a duplicate set of files with a postfix
MultiFileCount	13.12.17	Count words in a group of files
MultiFileDocToDocxSave	12.05.23	Save any .doc files in a folder also in .docx format
MultiFileFRedit	10.07.21	Multi-file version of FRedit
MultiFileLoader	06.04.23	Loads a set of files
MultiFilePageCount	30.03.21	Counts pages in a group of files
MultiFilePDF	13.12.17	Save a folder full of files as PDFs
MultiFileReferenceCollator	13.12.17	Collects all references (or foot/endnotes) from multiple files
MultiFileShowHiddenText	25.08.20	Unhides hidden text in multiple files
MultiFileText	07.02.23	Collects text plus simple formatting from multiple files
MultiFileTextForMac	17.02.20	Collects text plus simple formatting from multiple files
MultifileTrackChangeReport	24.09.18	Creates a file of sentences containing TCs in multiple files
MultiFileWord	28.11.20	Multiple Word file concatenation
MultifileXML	01.09.21	Save a folder full of files as XMLs

MultiSearch	28.05.22	Searches for a set of words in proximity
MultiSearchLoader	31.05.22	Loads text segments into MultiSearch
MultiSearchUp	28.05.22	Searches for a set of words in proximity
MultiSwitch	11.06.24	Scripted word/phrase switching
MultiSwitch	19.12.24	Scripted word/phrase switching
MultiSyllableWordsHighlight	10.08.23	Highlights words of 3, 4 or 5+ syllables
NamesReverse	13.06.22	Switches two names and adds (or removes) the comma
NameToInitial	02.03.15	Change given name to initial, then jump on to next
NavigationPanePrepare	16.06.23	Copies text and prepares for Navigation pane (only needed for Macs)
NavPaneCustomize	12.01.21	Opens the navigation pane where and how you want
NavPaneLoad	10.04.21	Copies selected text into the F&R box
NavPaneWidth	12.01.21	Widens the navigation pane
NextNumber	11.10.10	Find next section number
NextNumberPlus	11.10.10	Find next section number
NextNumberPlusUp	11.10.10	Find previous section number
NextNumberUp	11.10.10	Find previous section number
NgramFetch	18.10.21	Launches selected text on Google Ngram
NonCurlyApostrophe	01.01.10	Add non-curly single quote
NonCurlyQuote	01.01.10	Add non-curly double quote
NormaliseText	03.04.21	Sets Normal style and removes (some) formatting
NoteCitationsOutsidePunctuationGlobal	28.07.23	Moves all note numbers to outside the punctuation
NoteDeleteDblSpace	01.06.10	Deletes double spaces from endnotes
NoteJumper	21.05.12	Jump back and forth between notes and main text
NoteMarkerMoveEndSentence	13.03.23	Moves the foot/endnote marker to the end of the sentence
NoteRelocater	01.02.18	Takes footnotes out into the running text
NotesCopyToInline	18.01.23	Copies notes into inline notes in brackets
NotesEmbed	12.03.24	Embed footnotes or endnotes
NotesEmbedSquareBrackets	09.06.23	Creates endnotes from text-based notes, numbered in square brackets
NotesFootEndSwitch	22.11.22	Switches individual footnote <-> endnote (in note or in text)
NotesInlineToEmbed	24.11.20	Copies in-line notes into embedded notes
NotesReEmbedByNumber	13.01.21	Re-embed footnotes or endnotes by number
NotesUnembed	19.02.16	Unembeds footnotes or endnotes
NotesUnembedBySections	28.12.11	Unembed endnotes that are numbered in sections
NTaddressCopy	08.02.24	Reports the address of the folder holding the Normal template
NTbackupDated	20.07.24	Backs up the Normal template and the VBA code with date and time
NTbackupDatedSimple	20.07.24	Backs up the Normal template with date and

		time
NumberDecrement	20.11.24	Subtracts one from the next number after the cursor
NumberIncrement	20.11.24	Adds one to the next number after the cursor
NumberParasAuto	21.05.11	Adds hierarchical section numbering
NumberParasTagged	18.06.20	Adds numbering to first-level headings tagged with <a>
NumberRangeHyphenToDash	14.11.24	Changes all hyphens in number ranges to en dashes
NumberSelectedList	12.03.24	Applies (or corrects the existing) numbering on the selected text paragraphs
NumberSequenceCheckerDecimal	24.09.18	Checks consecutivity of numbering containing decimal point
NumberSequenceCheckerHierarchical	06.02.12	Check the sequence of section numbers
NumberSequenceCheckerSimple	24.09.18	Checks consecutivity of numbering
NumbersInSingleQuotesHighlight	16.12.24	Finds numbers (numerals) inside single quotes and highlights them
NumberTextFigureCount	14.01.23	Counts numbers as figures vs. words
NumberToFigure	16.01.21	Converts the next number to a figure
NumberTaller	30.11.22	Sums the numbers within the selected text (or checks the sum)
NumberToText2	01.06.22	Convert next number into text
NumberToTextCMOS	29.08.22	Converts next number into text, using e.g. "fourteen hundred"
NumberToTextMultiSwitch	18.01.20	Finds a number, then calls MultiSwitch to change it
NumberToTextUK	13.07.23	Converts next number into text, eg "two hundred and forty-two"
NumberToTextUK2	01.06.22	Convert next number into text
NumberToTextUS	13.07.23	Converts next number into text, eg "two hundred forty-two"
OddLanguageHighlighter	12.04.23	Highlights any characters NOT in the chosen language
OddQuoteSpacingCorrectAll	16.11.22	Corrects the odd spacing on quotation marks (due to RTL fonts)
OddQuoteSpacingCorrectSingle	26.07.22	Corrects the odd spacing on double quotation marks
OEDFetch	10.02.24	Launches selected text on OED dictionary site
OneLookFetch	18.10.21	Launches selected text to OneLook.com
OpenmySize	02.11.21	Opens the window to a particular size, position and magnification
OUPFetch	08.08.20	Launches selected text to OUP
OUPFetchPremium	10.06.24	Launches selected text to OUP Premium website.
OUPFetchPremiumMac	25.09.24	Launches selected text to OUP Premium website on a Mac
OvertimeBeep	01.01.10	Sound warning beep on overtime
OvertimeBeep2	01.01.10	Sound warning beep on overtime + visual

OxfordCommaSelectiveDelete	07.02.20	Moves to next Oxford comma and/or deletes current comma first
OxfordPremiumThesaurusFetch	26.09.24	Launches selected text on OUP Premium thesaurus
PageBreakColour	14.03.24	Colours/highlights the lines either side of each page break
PageCountBySection	03.04.21	Counts the pages between section headings
PageHopper	08.12.10	Go to page x
PageHopper2	18.12.10	Go to page x
PageNumberChecker	09.02.12	Check that the text page number = Word's page number
ParaDelete	29.10.21	Deletes the current paragraph
ParagraphEndChecker	22.12.23	Highlights the end of all possibly punctuation-less paragraphs
ParagraphLineLengthHighlighter	11.01.22	Highlights any paragraphs longer than a number of lines
ParagraphShrink	07.01.22	Shrinks the current paragraph (for use with CitationAlyse)
ParaSentenceLengthHighlighter	16.05.19	Highlights paragraphs with too many sentences
ParaShort	06.11.10	Finds medium-length paragraphs
ParaSplitJoin	04.12.24	Splits the para after current sentence or joins to next para
ParaWordLengthHighlighter	08.05.18	Highlights all paragraphs of a range of word lengths
ParenthesesAdd	06.06.22	Puts parentheses round the current word or phrase
ParenthesesEtcPairDelete	14.03.23	Removes the following pair of parentheses or quotes, etc.
ParticipleChanger	06.04.23	Toggles between past and present participles
ParticipleSentenceStartShow	04.01.24	Underlines + highlights the participles that start sentences
PasteUnformatted	30.01.10	Pastes unformatted
PasteWithEmphasis	30.12.10	Paste with emphasis
PDFfunniesToLigatures	18.04.13	Restore ligatures that have been converted to odd characters
PDFhardHyphenRestore	18.04.13	Hyphenate falsely concatenated words
PDFHyphenChecker	25.10.19	Checks the line-end hyphenation of a converted PDF
PDFHyphenRemover	28.10.19	Finds all end-of-line hyphens, joining back to the next word
PDFpageNumberer	30.09.20	Adds page numbers to each line of an exported PDF text
PDFpager	14.05.12	Highlights page numbers of text from a PDF
PDFrunningHeadHighlight	09.04.21	Locates running heads and highlights/enlarges page number
PDFsoftHyphenRemove	04.01.14	Unhyphenate split words
PDFspellAll	27.10.22	Underlines all spelling errors
PDFspellIgnoreProperNouns	17.11.22	Underlines all spelling errors except proper

		nouns
PDFunderlineToLigature	04.01.14	Restore underline characters into ligatures
PerCent	25.02.13	Changes percent symbol to words
Period	09.11.24	Makes adjacent words into sentence end
PeriodInDialogue	17.02.21	Make adjacent words into sentence end
PhraseAlyse	24.08.24	Lists phrases that are duplicated
PhraseCount	22.12.22	Counts each of a list of words/phrases
PhrasesInSentences	25.10.20	Lists all sentences containing a give phrase
PictureShow	31.08.11	Switch pictures on and off
Pluralise	15.07.22	Tries to make the current word plural
PluraliseDE	23.05.21	Toggles the ending plural/singular
PlurAlyse	17.06.23	Creates a frequency list of single/plural pairs
PlurAlyse	29.01.24	Creates a frequency list of single/plural pairs
PlurAlyseColour	19.06.23	Colours/highlights all words listed by PlurAlyse
PreferredSpellingsAlyse	29.02.24	Finds words similar to those in a preferred-spelling list
PrepareToReplaceDown	10.04.21	Copies selected text into the F&R box
PrepareToReplaceDownTCoff	10.04.21	Copy text into the F&R box
PrepareToReplaceFromTop	10.04.21	Copy text into the F&R box from top
PrepareToReplaceWithMarker	10.04.21	Copy text into the F&R box from top leaving marker
ProperNounAlyse	21.12.24	Analyses similar proper nouns
ProperNounAlyse	26.07.22	Analyses similar proper nouns
ProperNounAlyseES	30.08.22	Analyses similar proper nouns
ProperNounsInSectionsMultiword	30.01.23	Collects multi-word proper nouns by section and alpha lists
ProperNounToFredit	04.02.22	Picks up alternative spellings in a PN query list for a Fredit list
ProperToPronoun	02.05.18	Changes the next proper noun to a personal pronoun
PublisherSwitch	14.11.23	Swaps "Location: Publisher Name" to "Publisher Name, Location"
PubMedFetch	08.08.20	Launches selected text to PubMed
PunctAlyse	18.10.11	Produces usage statistics of various punctuation
PunctuationAfterCitation	17.10.22	Moves the full point (period) to after the citation
PunctuationBoldOff	06.10.21	Un-bolds all commas, etc. not followed by bold text
PunctuationFormatChecker	07.03.24	Variously highlight italic/roman punctuation
PunctuationItalicOff	20.01.23	Un-italicises all commas etc not followed by italic text
PunctuationOff	30.06.23	Deletes the next punctuation item
PunctuationOffNearHere	03.11.17	Removes the punctuation near the cursor
PunctuationOffRight	16.01.21	Removes the punctuation off a word end (and quote off start)

PunctuationSwap	03.06.22	Swaps the next punctuation mark
PunctuationSwapInDialogue	03.06.22	Swaps the next punctuation mark
PunctuationSwitcher	04.10.12	Changes order of next two punctuation marks
PunctuationToApostrophe	01.02.24	Changes next quote mark to an apostrophe
PunctuationToComma	25.03.23	Changes the next punctuation item to a comma
PunctuationToDash	25.03.23	Changes next hyphen/em/en dash to an em/en dash
PunctuationToDoubleCloseGuillemet	25.03.23	Changes next quote mark to double close guillemet
PunctuationToDoubleOpenGuillemet	25.03.23	Changes next quote mark to double open guillemet
PunctuationToDoublePrime	25.03.23	Change next quote mark to double prime
PunctuationToDoubleQuote	26.03.23	Changes next quote mark to double curly
PunctuationToDoubleQuoteDE	11.12.19	Changes next quote mark to German double curly
PunctuationToDoubleQuoteFR	11.12.19	Changes next quote mark to French double curly
PunctuationToEmDash	19.11.21	Changes next hyphen/em/en dash to an em dash
PunctuationToEnDash	19.11.21	Changes next hyphen/em/en dash to an en dash
PunctuationToFullPoint	25.03.23	Changes the next punctuation item to a full point
PunctuationToHardSpace	25.03.23	Changes the next item to a hard space
PunctuationToHyphen	25.03.23	Changes the word break punctuation to a hyphen
PunctuationToMinus	13.04.24	Finds punctuation and changes to minus sign
PunctuationToMultiplySign	19.11.21	Changes next x or X to multiplication sign
PunctuationToMultiplySign	25.03.23	Changes next x or X to multiplication sign
PunctuationToNonBreakingEmDash	14.06.22	Changes next hyphen/em/en dash to a non-breaking em dash
PunctuationToNonBreakingEnDash	25.03.23	Changes next hyphen/em/en dash to a non-breaking em/en dash
PunctuationToNonBreakingThinSpace	25.03.23	Changes next space etc to a non-breaking thin space
PunctuationToNothing	25.03.23	Changes next punctuation mark to nothing, i.e. deletes it
PunctuationToParagraphSplit	03.12.24	Splits the paragraph after the next sentence end
PunctuationToPrime	25.03.23	Change next quote mark to single prime
PunctuationToSingleCloseGuillemet	25.03.23	Changes next quote mark to single close guillemet
PunctuationToSingleOpenGuillemet	25.03.23	Changes next quote mark to single open guillemet
PunctuationToSingleQuote	06.05.24	Changes next quote mark to single curly
PunctuationToSingleQuoteDE	11.12.19	Changes next quote mark to German single

		curly
PunctuationToSingleQuoteFR	11.12.19	Changes next quote mark to French single curly
PunctuationToSpace	25.03.23	Change the next punctuation item to a space
PunctuationToThinSpace	19.11.21	Changes the next item to a thin space
PunctuationTrackAcceptAll	16.02.24	Accepts all track changes that involve punctuation
QQAddMenu	01.06.21	Adds a QQ comment from a user-set menu
QQConvert	14.06.21	Converts QQ comments to ordinary comments
QQUpdate	28.05.21	Renumbers QQ comments
QuestionMark	09.11.24	Makes adjacent words into sentence end
QuickSort	21.12.24	Sorts an array of text at high speed
QuotationMarker	21.05.20	Marks all quotes + displayed text
QuotationMarkErrorFinder	28.05.20	Moves to the next mismatched double quotes
QuoteCopier	24.09.18	Copies text from one quote pair to the next
QuoteExtractor	23.03.20	Copies paragraph that contain italic text and are indented or contain quotes
QuoteMarkEmbedder	04.11.17	Changes double quotes inside double quotes to singles
QuotesAddDouble	06.07.24	Adds quotes round a word or phrase
QuotesAddSingle	06.07.24	Adds single quotes round a word or phrase
QuoteSingleDoubleSwitchGlobal	15.05.24	Changes double quotes to single and vice versa, avoiding apostrophes
QuoteSingleToDoubleGlobal	15.01.23	Changes single quotes to double, avoiding apostrophes
QuotesOffBothEndsDouble	03.09.22	Removes double quotations marks from both ends of a text
QuotesOffBothEndsDoubleAddItalic	03.02.23	Removes double quotations marks from both ends of a text + italicises
QuotesOffBothEndsSingle	03.09.22	Removes single quotations marks from both ends of a text
QuotesToGuillemets	08.10.22	Changes all double and single quotes (inc. German) into guillemets
RAEfetch	10.05.22	Launches selected text on Real Academia Española
RandomTextType	24.11.23	Types out paragraphs of pseudo-Latin or English text
RandomTextTypeMac	24.11.23	Types out paragraphs of pseudo-Latin or English text (Mac version)
RedTagger	28.10.20	Colours all tags red
RefCitationConvert	04.04.20	Converts superscripted ref. citations to bracketed
ReferenceCheckWeb	30.08.16	Check each hyperlink and highlight accordingly
ReferenceDateShift	14.10.16	Move date from end of reference to after author(s)
ReferenceErrorHighlight	19.07.23	Highlights references that aren't found

ReferenceNameDateMover	10.04.23	Moves forename/initials to before surname or move year to end
ReferenceNameFinder	08.04.11	Get date from reference and add after author citation
ReferencesCollator	11.07.18	Finds reference lists, and colours, collates and sorts them
RemoveNumbersFromHeadings	15.10.19	Removes automatic numbering from headings
RenumberNotes	02.12.20	Renumbers all note numbers in selected text
RenumberSuperscript	28.11.20	Renumbers all superscript numbers
RepeatedWordsInParagraphs	10.09.23	Highlights any words duplicated within given paragraphs
RepeatedWordsInSentences	12.09.19	Highlights any words duplicated within a given sentence
ReplicateThisEdit	07.01.17	Replicates the change just made, through the rest of the file
ReverseList	05.09.20	Reverses the order of items in a list
ReviewPaneToggle	03.03.22	Opens and closes the track change review pane
RevisionsHighlight	19.02.20	Highlights all the edits in a text
RibbonMinMax	18.12.14	Toggle between maximize and minimize of the ribbon
Romanise	24.10.16	Removes italic from the next set of italic characters.
RomanPunctuationHighlight	13.06.23	Finds roman punctuation that follows italic text
RulersShow	10.02.20	Switches Word's ruler on and off
SampleFindAndDo	08.02.12	Find something specific and do things to each one
SaveAllUnsavedDocs	26.10.23	Saves all unsaved documents
SaveAsWithIndex	30.06.23	Saves the current file, adding a postfix
ScareQuoteAdd	29.05.21	Add single quotes round a word
SciMarkPicker	10.05.11	Call up the Insert Symbol window set to Greek characters
ScreenColourSwitch	01.01.23	Switches colour text and background on/off
SearchHierarchically	24.11.23	Shell macro: Searches hierarchically for a character
SearchThenChange	16.01.21	Finds one of the words from a list, then changes to its alternate
SearchThenMultiSwitch	16.01.21	Finds one of your words, then calls MultiSwitch to change it
SearchTheseWords	13.09.19	Finds the next occurrence of any of a list of words
SectionHeadsInComments	26.02.24	Adds the heading style and text of each heading into a comment
SectionNumberChecker	16.02.11	Check the sequence of section numbers
SelectBetweenQuotes	17.07.23	Selects text between double quotes and optionally does a Fetch
SelectCurrentPage	26.01.11	Select the current page

SelectHighlightedText	05.09.11	Selects all text in a given highlight
SelectionEndExtend	03.07.23	Moves the end of the selection further out to the right (i.e. extends it)
SelectionEndShrink	03.07.23	Pulls the end of the selection back to the left (i.e. shrinks it)
SelectionGrowLeft	02.09.23	Extends the selection word by word to the left
SelectionGrowRight	02.09.23	Extends the selection word by word to the left
SelectionRoundOff	01.09.23	Extends the existing selection to the nearest word end/start
SelectionStartExtend	03.07.23	Moves the start of the selection further out to the left (i.e. extends it)
SelectionStartShrink	03.07.23	Pulls the start of the selection back to the right (i.e. shrinks it)
SelectiveUnColourUnHighlight	04.11.17	Removes highlighting + removes coloration, but only on non-program text
SelectNextHighlight	13.09.19	Selects the next piece of highlighted text
SelectParagraph	24.11.10	Selects current paragraph
SelectPreviousHighlight	13.09.19	Selects the previous piece of highlighted text
SelectSentence	12.11.22	Selects the current sentence + next sentence right
SelectTheseWords	12.12.11	Extend selection to whole words
SelectToBottom	31.05.24	Selects all the text from the cursor to the bottom of the document (for Mac users)
SelectToSentenceEnd	23.04.21	Selects from current word to end of sentence
SelectToTop	31.05.24	Selects all the text from the cursor to the top of the document (for Mac users)
SelectWord	24.05.24	Selects current word, and then those before it
Semicolon	09.11.24	Make adjacent words into semicolon separated
SemicolonEndPara	09.02.11	Lowercase first character + add semicolon at end
SentenceAlyse	28.09.19	Analyse the lengths of sentences
SentenceExactRepeatChecker	14.02.23	Unprotects the current file
SentenceHighlight	25.05.24	Creates a list of all styles name
SentenceReverse	02.10.22	Switches the order of the two sentences in the bullet point
SentenceRoughRepeatChecker	14.02.23	Unprotects the current file
SerialCommaAlyse	25.01.22	Highlights things that might be lists with serial commas (or not)
SerialCommaCounter	12.11.19	Counts serial (or not) commas in lists
SerialCommaHighlight	08.06.24	Highlight or underline text that appears to have a serial comma
SerialNotCommaHighlight	08.06.24	Highlights or underlines text that appears not to have a serial comma
SetTextBoxStyle	01.06.10	Apply style to all textboxes
ShapeShowHide	29.08.17	Makes all shapes distinguishable

ShiftDown	09.04.24	Moves a list item up
ShiftIn	10.04.24	Moves items from the list back into the current document
ShiftOut	09.04.24	Moves items out into a separate list
ShiftUp	09.04.24	Moves a list item up
ShortTitleAlyse	17.03.22	Analyses Short titles to check references against citations
ShortTitleLister	19.05.13	Create a list of the named references in the notes
ShortTitleUnderline	17.03.22	Underlines the current author name(s)
ShowFixedSpaces	09.02.10	Fixed spaces visible
ShowFormatting	10.05.17	Display all formatting or just paragraph marks
ShowFormattingMenu	01.02.18	Displays (or not) various formatting markers, and the highlighting
ShowHideAllTracking	01.01.10	Toggle showing track changes and comments on and off
ShowHideTracksOnly	01.01.10	Toggle showing just track changes on and off
ShowStyles	06.05.12	Show style names as <A>-type codes in the text
SigloSmallCaps	24.02.22	Finds "siglo" and small-caps the IVX following
SimilarWordsAlyse	29.02.24	Analyses similar words
SinglePrime	19.02.16	Adds single prime
SingleQuotesDoubleTopical	20.07.23	Changes single quotes around current text to doubles
SmallCapsToProperNoun	11.02.18	Changes every small caps word into initial cap + lowercase
SmallCapWord	15.06.21	Makes the current word smallcaps
SmartFinder	15.01.21	Finds this text/note/page/etc, etc immediately.
SomethingFetch	28.08.22	Launches selected text to Xyz website.
SomethingFetchAlt	27.08.22	Launches selected text to Xyz website.
SortAndRemoveDups	19.09.18	Sort the selected text
SortCaseSense	17.02.11	Sort into separate lists: Lcase/Ucase
SortIt	02.11.19	Sort the selected text
SortListInText	16.01.21	Sorts items in a list in the text alphabetically.
SortNumberedList	03.07.12	Sort references, ignoring the number at the beginning
SortOnTextAfterDelimiter	28.10.17	Sorts the selected list based on second 'field'
SortTextBlocks	28.10.17	Alpha sorts blocks of text by first line
SpaceAfterSelector	18.02.13	Increase and decrease space after paragraph
SpaceBeforeSelector	18.02.13	Increase and decrease space before paragraph
SpacedFontFinder	19.01.23	Finds and highlights/underlines any text with odd spacing
SpaceEquationsInPara	08.06.17	Adds spaces to MathType equation in this

		para if necessary
SpacesInThousands	29.11.16	Changes four-figure numbers from comma to space.
SpecialCharList	28.02.10	Creates a list of the Unicode characters in the document
SpecialSortsLister	18.01.23	Collect all special sorts in a file
SpecialWordSpellAlyse	01.12.20	Does a ProperNounAlyse of all long 'spelling error' words
SpeciesAbbreviator	12.03.22	Adds genus and species to the text, pulling data off a file
SpellAlyse	25.05.23	Complete spellchecking system
SpellAlyseToFredit	23.04.24	Corrects spelling and wrong capitalisation
Spellcheck	06.12.10	Run a spellcheck
SpellCheckerPlus	27.05.20	Spellchecks from cursor, using multiple languages
SpellcheckingOffForTurquoiseWords	30.09.24	Set any words in turquoise to not be spellchecked
SpellcheckWarn	30.04.11	Run a spellcheck, but beep if not UK or languages are mixed
SpellcheckWordCurrent	10.12.11	Spellcheck single word in current language
SpellcheckWordUK	25.08.11	Spellcheck single word UK
SpellcheckWordUS	25.08.11	Spellcheck single word US
SpellcheckWordUSUK	19.12.11	Spellcheck single word in NOT the current language
SpellingCorrect	01.11.24	Corrects spelling and wrong capitalisation
SpellingErrorHighlighter	11.04.21	Highlights all spelling errors
SpellingErrorLister	02.03.22	Generates an alphabetic list all the spelling 'errors'
SpellingErrorListerBilingual	03.09.20	Generates an alphabetic list all the bilingual spelling 'errors'
SpellingListProcess	27.04.16	Tidy up a spelling Fredit list from cursor downwards
SpellingShowToggle	25.05.20	Switches visible spelling error indication on and off
SpellingSuggest	12.02.24	Checks/corrects spellings or adds/subtracts Fredit suggested change
SpellWordChange	14.01.21	Accepts Word's spelling suggestion for current word
SpikeCopy	26.02.11	Copy to spike
SpikeCut	26.02.11	Cut to spike
SpikePaste	26.02.11	Paste the whole contents of the spike
SplitScreen	28.05.21	Splits the screen
SpracheCH	09.04.23	Sets language as SwissGerman
SpracheDE	09.04.23	Sets language as German
SrikeAllHighlightText	25.10.20	Adds strikethrough to all highlighted text
StrikeAndColour	01.09.16	Adds strikethrough and colour
StrikeItalicParagraphs	04.11.22	Add single strike to all italic paragraphs
StrikeSingle	15.08.17	Adds or removes strike-through
StrikeThroughAllURLs	18.04.24	Strikes through all URLs to protect them

		from changes
StyleBodyIndent	20.01.17	Adds body style generally, plus No indent after headings
StyleCopy	04.01.11	Copy style
StyleDetector	14.08.19	Displays or speaks the current style name
StyleEffectDetector	10.09.19	Reports the style and effects applied to the text
StyleFollowingHeadings	13.04.18	Sets the style of the paragraph after each heading
StyleLister	18.04.24	Lists all paragraph and character styles used
StylePaste	04.01.11	Paste style
StylesPaneCustomize	12.01.21	Moves the Styles pane where and how you want
SubscriptOnOff	05.03.23	Toggles subscript ON/OFF
SubscriptSwitch	17.05.22	Toggle superscript and subscript
SuitToText	21.07.11	Convert playing card suit symbols to text
SuperscriptNumberFormatter	28.10.19	Corrects spaces + punctuation on superscripted numbers
SuperscriptHighlightSmart	25.09.15	Highlight all superscript numbers according to type
SuperscriptNoteNumber	11.08.11	Superscript note number
SuperscriptOnOff	05.03.23	Toggles superscript ON/OFF
SuperscriptSwitch	17.05.22	Toggle subscript
SuperSubConvert	20.11.17	Changes weird super/subscript format to proper ones
SurnamesAllCaps	18.09.15	Capitalise all the surnames in a refs list
SurnameSorter	01.10.18	Sorts a name list on surname, but allowing for postfixes
SwapCharacters	06.10.21	Switches characters either side of caret
SwapNames	06.10.14	Swap adjacent names
SwapNamesFullPoints	13.11.23	Swap name and initials and add full points
SwapPreviousCharacters	06.10.21	Switches the two chars in front of the caret
SwapPunctuation	25.05.24	Swaps the next pair of punctuation marks
SwapThreeWords	14.01.21	Swaps three adjacent words (A and B to B and A)
SwapWords	14.03.23	Swaps adjacent words
SymbolFontCheck	23.02.10	Greek symbol font checker
SymbolShowNumber	28.10.13	Types out the 'unicode' of the symbol font character
SymbolToUnicode	11.11.13	Converts Symbol font characters to Unicode characters
TabbedParasToIndent	30.08.23	Finds tabbed paras, deletes them and adds first-line indent instead
TableBordersToggle	14.08.19	Switches table borders and rules on and off
TableCallouts	14.12.10	Table callout inserter
TableCellsInitialCaps	01.09.16	Applies an initial capital to every cell in the selected range
TableEdit	03.08.24	Edits items in the cells of some or all tables
